To whom it may concern

I am writing to formally object to the above proposal to build upon this area of natural beauty and potentially alter its historic landscape forever.

Centuries of uninterrupted open conservation land that has encouraged our wildlife to contribute to our ever evolving climate challenges will be compromised beyond regulation , we will not be able to reverse this travesty.

We are fully stretched already with essential community needs such as Doctors Surgeries, Dentists, Care Facilities and overloading the postcode further cannot be a good plan.

I appeal to the renewed sense of change that has happened with our Government recently and hope we can now feel that sense prevails on local decisions and not just going through the motions of a box ticking exercise that appears to have been the case with previous applications.

Thank you
