As a nation, we must protect the natural environment gifted to us by previous generations. The land proposed for this development is in greenbelt and should not be built on but in addition, it is essential to preserve the panoramic views from the village toward Upper Cumberworth. Although not a resident of the village I walk this area most weeks and enjoy the beauty of the natural landscape, along with many others, both young and old. The proposal would destroy the amenity the landscape provides and destroy the magnificent views it provides. Yes, houses need to be built, but Kirklees Council must not allow building developers who cynically and shamefully propose developments on what for them is easily exploited and cheap land. I implore Kirklees Council to always consider and encourage development on Brownfield sites of which there are many in the Kirklees area. These are sites which do not destroy the beauty of Kirklees. I have friends from other parts of the UK, who are surprised when they visit to discover such a beauty in what they consider to be an industrial area of the country. Please reject this proposal on the grounds of landscape, amenity wildlife preservation and as custodians for future generations, I implore you. Thank you for considering my objection.
