

Appendix A – Climate Change Statement

Climate Change Statement for Planning Applications

Part 1: Applicant details

Name of applicant/agent	Charlotte Lucks
Site Address	61, Swallow Lane, Golcar, Huddersfield, HD7 4NB
Description of Development	Application for dropped kerb in front of property and porous tarmac drive

Part 2: Climate Change Mitigation measures

Please respond to the following questions considering the measures set out in the Climate Change Guidance note:
Q1: What measures have been/will be taken to reduce the energy demand associated with your proposed development beyond the minimum required in Building Regulations? (See section 2)
Not applicable
Q2: What measures have been/will be taken to limit the carbon consumed through the implementation and construction processes, e.g. by reusing existing on-site materials or sourcing materials locally? (See section 3)
Materials to be sourced locally, within 10 miles of property where possible.
Q3: What measures have been/will be taken to utilise renewable or low carbon energy sources? (See section 4)

Not applicable
Q4: What measures have been/will be taken to ensure the building design and layout has been optimised to energy efficiency beyond the minimum requirements in Part L of the Building Regulations ? (See section 5)
Not applicable
Q5: What measures have been/will be taken to reduce potential impacts of flooding associated with your proposed development? (See section 6)
All new hardstanding will be constructed using porous asphalt. This design ensures that all surface water naturally infiltrates the ground within the property boundary rather than discharging directly into the public highway or local sewer system, complying with national SuDS guidelines.
Q6: What measures have been/will be taken to reduce water stress associated with your proposed development? (e.g. Water retention and minimisation measures) (See sections 7 and 8)
Surface water to permeate through tarmac down into ground within property boundary.
Q7: What measures have been/will be taken to provide biodiversity net gains? (See section 8)
Not applicable
Q8: What measures have been/will be taken to reduce air pollution associated with your proposed development? (See section 9)
Not applicable
