

Town and Country Planning Act 1990

**Town and Country Planning (Development Management Procedure) (England) Order
2015**

PLANNING PERMISSION FOR DEVELOPMENT

Application Number: 2023/62/92928/E

To: Scott Smith
Setsquare Architecture Ltd
21a, Phoebe Lane Ind. Est.
Phoebe Lane
Halifax
HX3 9EX

For: M ATKINS

In pursuance of its powers under the above-mentioned Act and Order the KIRKLEES COUNCIL (hereinafter called "The Council") as Local Planning Authority hereby permits:-

ERECTION OF 4 DWELLINGS

At: LAND AT, TAYLOR HALL LANE, MIRFIELD, WF14

In accordance with the plan(s) and applications submitted to the Council on 02-Oct-2023, subject to the condition(s) specified hereunder:-

1. The development hereby permitted shall be begun within three years of the date of this permission.

Reason: Pursuant to the requirements of Section 91 of the Town and Country Planning Act 1990

2. The development hereby permitted shall be carried out in complete accordance with the plans and specifications schedule listed in this decision notice, except as may be specified in the conditions attached to this permission, which shall in all cases take precedence.

Reason: For the avoidance of doubt as to what is being permitted and to ensure the satisfactory appearance of the development on completion, and to accord with Policies LP1, LP2, LP3, LP7, LP11, LP20, LP21, LP22, LP24, LP26, LP28, LP30, LP33, LP51, LP52 and LP53 of the Kirklees Local Plan and the aims of the National Planning Policy Framework.

3. The semi-detached dwellings hereby approved shall be faced in red brick for the external walls with artificial stone heads and sills and grey concrete tiles for the roofs. The materials of construction shall thereafter be retained for the lifetime of the development.

Reason: In the interests of visual amenity and to accord with Policy LP24 of the Kirklees Local Plan, Principle 13 of the Council's Housebuilders Design Guide SPD, and the aims of Chapter 12 of the National Planning Policy Framework.

4. Prior to development commencing on the superstructure of the dwellings hereby approved, details of all the external facing and roofing materials shall be submitted to and approved in writing by the Local Planning Authority. Thereafter the development shall be carried out in accordance with the approved details and retained as such.

Reason: This pre-commencement condition is in the interest of visual amenity and to comply with Policy LP24 of the Kirklees Local Plan and Chapter 12 of the National Planning Policy Framework.

5. Notwithstanding the submitted plans and information, before development commences on the superstructure of the dwellings hereby approved, full details of all boundary treatments shall be submitted to and approved in writing by the Local Planning Authority. The development shall thereafter be completed in accordance with the approved details before the dwellings are first brought into use and thereafter retained.

Reason: This pre-commencement condition is in the interest of visual and residential amenity, in accordance with Policy LP24 of the Kirklees Local Plan, Principles of the Housebuilders Design Guide Supplementary Planning Document and Chapter 12 of the National Planning Policy Framework.

6. Groundworks shall not commence until actual or potential land contamination at the site has been investigated and a Preliminary Risk Assessment (Phase I Desk Study Report) by a suitably competent person has been submitted to and approved in writing by the Local Planning Authority.

Reason: This pre-commencement condition is necessary to ensure the safe occupation of the site in accordance with Policy LP53 of the Kirklees Local Plan and Paragraph nos. 196 and 197 of the National Planning Policy Framework.

7. Where site remediation is recommended in the Phase II Intrusive Site Investigation Report approved pursuant to condition 6, further groundworks shall not commence until a Remediation Strategy by a suitably competent person has been submitted to and approved in writing by the Local Planning Authority. The Remediation Strategy shall include a timetable for the implementation and completion of the approved remediation measures.

Reason: This pre-commencement condition is necessary to ensure the safe occupation of the site in accordance with Policy LP53 of the Kirklees Local Plan and Paragraph nos. 196 and 197 of the National Planning Policy Framework.

8. Remediation of the site shall be carried out and completed in accordance with the Remediation Strategy approved pursuant to condition 7. In the event that remediation is unable to proceed in accordance with the approved Remediation Strategy or contamination not previously considered [in either the Preliminary Risk Assessment or the Phase II Intrusive Site Investigation Report] is identified or encountered on site, all groundworks in the affected area (except for site investigation works) shall cease immediately and the Local Planning Authority shall be notified in writing within 2 working days.

Works shall not recommence until proposed revisions to the Remediation Strategy have been submitted to and approved in writing by the Local Planning Authority. Remediation of the site shall thereafter be carried out in accordance with the approved revised Remediation Strategy.

Reason: This pre-commencement condition is necessary to ensure the safe occupation of the site in accordance with Policy LP53 of the Kirklees Local Plan and Paragraph nos. 196 and 197 of the National Planning Policy Framework.

9. Following completion of any measures identified in the approved Remediation Strategy or any approved revised Remediation Strategy a Verification Report by a suitably competent person shall be submitted to the Local Planning Authority. No part of the site shall be brought into use until such time as the remediation measures have been completed for the site in accordance with the approved Remediation Strategy or the approved revised Remediation Strategy and a Verification Report in respect of those remediation measures has been approved in writing by the Local Planning Authority.

Reason: This pre-commencement condition is necessary to ensure the safe occupation of the site in accordance with Policy LP53 of the Kirklees Local Plan and Paragraph nos. 196 and 197 of the National Planning Policy Framework.

10. Prior to development commencing a Construction Environmental Management Plan (CEMP) shall be submitted to and agreed in writing with the Local Planning Authority. The plan shall describe in detail the actions that will be taken to minimise adverse impacts on occupiers of nearby properties by effectively controlling:

- Noise & vibration arising from all construction related activities. This should also include suitable restrictions on the hours of working on the site including times of deliveries.
- Dust arising from all construction related activities, which should include measures to monitor and record the emissions of dust during construction
- Artificial lighting used in connection with all construction related activities and security of the construction site. A communications plan detailing the responsible person, their contact details and how this will be communicated to local residents and the Local Authority must be included. The agreed plan shall be adhered to throughout the construction of the development.

Reason: This pre-commencement condition is necessary to safeguard the amenities of the occupiers of nearby properties in accordance with Chapter 15 of the National Planning Policy Framework and LP52 of the Local Plan.

11. Prior to the commencement of development, a plan detailing the specification, positioning and location of two integrated bat boxes (Ibstock Enclosed Bat Box 'C' or suitable alternative) shall be submitted to and approved in writing to the local authority. The boxes shall be installed and retained as detailed in the approved plans.

Reason: This pre-commencement condition is necessary to provide an enhancement to biodiversity in line with LP30 and the requirements of section 15 of the National Planning Policy Framework.

12. The development shall not be brought into use until the areas to be used by vehicles and/or pedestrians have been surfaced and drained in accordance with the Communities and Local Government; and Environment Agency's 'Guidance on the permeable surfacing of front gardens (parking areas)' published 2009 (ISBN as amended or any successor guidance). The parking space shall be so retained, free of obstructions and available for the use thereafter.

Reason: In the interests of highway safety and to ensure satisfactory surface water drainage of the site in accordance with Policy LP21 and LP28 of the Kirklees Local Plan and the aims of the National Planning Policy Framework.

13. Notwithstanding the details shown on the approved plan, the development shall not commence until a scheme detailing the provision of a 2m wide footway to the Taylor Hall Lane frontage of the development site, construction specification, surfacing, drainage and kerbing and associated highway works has been submitted and approved in writing by the Local Planning Authority. The development shall not be brought into use until the approved scheme has been implemented and thereafter retained throughout the lifetime of the development.

Reason: This pre-commencement condition is in the interest of highway safety and to allow for safe pedestrian access to and from the site in accordance with Policy LP21 of the Kirklees Local Plan and the aims of the National Planning Policy Framework.

14. Prior to the development being brought into use, the sightlines of 2.4m x 43m along Taylor Hall Lane shall be shown on a plan and presented to the local planning authority for written approval and afterward these visibility splays be cleared of all obstructions to visibility exceeding 0.9 m in height and these shall be retained free of any such obstruction throughout the lifetime of the development.

Reason: This pre-commencement condition is necessary to ensure adequate visibility in the interests of highway safety and in accordance with Policy LP21 of the Kirklees Local Plan and the aims of the National Planning Policy Framework.

15. Notwithstanding the details shown on the approved plan, no development shall take place until a scheme detailing arrangements and specification for layout of parking and pedestrian access has been submitted to and approved in writing by the Local Planning Authority. Before any building is occupied the development shall be completed in accordance with the details shown on the approved plans and retained thereafter.

Reason: This pre-commencement condition is necessary to ensure a suitable access and layout in the interest of highway safety and to comply with Policy LP21 of the Kirklees Local Plan and the aims of the National Planning Policy Framework.

16. Before development commences, details of suitable storage, bin presentation points and access for collection of wastes from the dwellings hereby approved shall be submitted to and approved in writing by the Local Planning Authority. The approved details shall be provided before first occupation and shall be so retained thereafter.

Reason: This pre-commencement condition is in the interest of highway safety and to meet the requirements set out in Local Plan Policy LP24 part d(vi).

17. Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) Order 2015 (or any Order revoking or re-enacting that Order (with or without modification)) no development included within Classes A through E of Part 1 of Schedule 2 to that Order shall be carried out without the prior written consent of the Local Planning Authority.

Reason: In the interests of visual amenity and to avoid overdevelopment in accordance with Policy LP24 of the Kirklees Local Plan and the National Planning Policy Framework.

NOTE: All contamination reports shall be prepared by a suitably competent person, as defined in Annex 2 of the National Planning Policy Framework 2021. Reports must be prepared in accordance with the following guidance:

- *Land Contamination Risk Management (LCRM)*
- BS 10175:2011+ A2:2017 *Investigation of Potentially Contaminated Sites. Code of Practice*
- *Development on Land Affected by Contamination - Technical Guidance for Developers, Landowners & Consultants - (v11.2) June 2020* by the Yorkshire and Lincolnshire Pollution Advisory Group.

The conditions relate to Planning Control only. Approval under the Building Regulations may also be required, and the applicant should contact their Building Control Provider for further information. Any other necessary consent must be obtained from the appropriate authority. If the applicant commences work without discharging conditions, they will be at risk of enforcement action and invalidating the permission if the planning condition is a pre commencement condition.

NOTE: The electrical supply of the final installation should allow the charging equipment to operate at full rated capacity and the installation must comply with all applicable electrical requirements in force at the time of installation. The conditions relate to Planning Control only. Approval under the Building Regulations may also be required, and the applicant should contact their Building Control Provider for further information in relation to Approved Document S.

NOTE: The granting of planning permission does not authorise the carrying out of works within the highway, for which the written permission of the Council as Highway Authority is required. You are required to consult the Design Engineer, Flint Street, Fartown, Huddersfield (Kirklees Street Scene: 01484 221000) with regard to obtaining this permission and approval of the construction specification. Please also note that the construction of vehicle crossings within the highway is deemed to be major works for the purposes of the New Roads and Street Works Act 1991 (Sections 84 and 85). Interference with the highway without such permission is an offence which could lead to prosecution.

NOTE: Any retaining features affecting the highway will require formal technical approval by the Council as the Highway Authority. KC Highways would recommend providing details of all proposed retaining features and underground storage facilities (including pipes) to Farhad Khatibi (Team Leader) in the structures section at the earliest opportunity, who will be able to advise you of the necessary requirements in more detail.

NOTE: The approved vehicle parking areas will need be surfaced and drained in accordance with the Communities and Local Government; and Environment Agencies 'Guidance on the permeable surfacing of front gardens (parking areas)' published 13th May 2009 (ISBN 9781409804864) as amended or superseded. www.communities.gov.uk/publications/planningandbuilding/pavingfrontgardens

NOTE: Details of waste storage and collection requirements can be obtained in the Kirklees Cleansing Department in the document "Waste Storage and Collection Guidance for New Developments" which is available from waste.planning@kirklees.gov.uk Or at <https://www.kirklees.gov.uk/beta/planning-applications/pdf/waste-management-design-guide-new-developments.pdf>

NOTE: It should be noted where SUDs are proposed as part of the development scheme, consideration will need to be given to the implications of this in relation to the stability and public safety risks posed by coal mining legacy. The developer should seek their own advice from a technically competent person to ensure that a proper assessment has been made of the potential interaction between hydrology, the proposed drainage system and ground stability, including the implications this may have for any mine workings which may be present beneath the site.

NOTE: It should be noted that wherever coal resources or coal mine features exist at shallow depth or at the surface, there is the potential for mine gases to exist. These risks should always be considered by the LPA. The Planning & Development team at the Coal Authority, in its role of statutory consultee in the planning process, only comments on gas issues if our data indicates that gas emissions have been recorded on the site. However, the absence of such a comment should not be interpreted to imply that there are no gas risks present. Whether or not specific emissions have been noted by the Coal Authority, local planning authorities should seek their own technical advice on the gas hazards that may exist, and appropriate measures to be implemented, from technically competent personnel.

NOTE: Due to its location, a bat roost may be present on site. Bats are a European protected species under regulation 41 of the Conservation of Habitats and Species Regulations 2010. It is an offence for anyone intentionally to kill, injure or handle a bat, disturb a roosting bat, or sell or offer a bat for sale without a licence. It is also an offence to damage, destroy or obstruct access to any place used by bats for shelter, whether they are present or not.

NOTE: Kirklees Council has powers under Section 60 of the Control of Pollution Act 1974 to control noise from construction sites and may serve a notice imposing requirements on the way in which construction works are to be carried out. It has additional powers under Sections 80 of the Environmental Protection Act 1990 to prevent statutory nuisance including noise, dust, smoke and artificial light and must serve an abatement notice when it is satisfied that a statutory nuisance exists or is likely to occur or recur. Failure to comply with a notice served using the above-mentioned legislation would be an offence for which the maximum fine on summary conviction is unlimited.

NOTE: The granting of planning permission does not override any private legal rights or consents that may be required. It is the responsibility of the applicant / developer to ensure that all appropriate consents are in place prior to any development commencing; during the period of construction existing access for neighbouring properties is maintained; and no damage is caused to the access driveway or surrounding properties.

NOTE: To minimise noise disturbance at nearby premises it is generally recommended that activities relating to the erection, construction, alteration, repair or maintenance of buildings, structures or roads shall not take place outside the hours of:

- 07.30 and 18.30 hours, Mondays to Fridays
- 08.00 and 13.00hours, Saturdays
- With no working Sundays or Public Holidays

In some cases, different site-specific hours of operation may be appropriate. Under the Control of Pollution Act 1974, Section 60 Kirklees Environment and Transportation Services can control noise from construction sites by serving a notice. This notice can specify the hours during which the works may be carried out.

NOTE: For further information regarding dust control, guidance can be found in the Institute of Air Quality Management (IAQM) document "Guidance on the assessment of dust from demolition and construction" Version 1.1 2014.

Pursuant to article 35 (2) of the Town and Country Planning (Development Management Procedure) Order 2015 and guidance in the National Planning Policy Framework, the Local Planning Authority have, where possible, made a pre-application advice service available, complied with the Kirklees Development Management Charter 2015 and otherwise actively engaged with the applicant in dealing with the application.

The Case Officer undertook negotiations with the agent to secure amended plans. The revised drawings received were considered acceptable in terms of residential amenity. Furthermore, the agent has also confirmed their agreement to the pre-commencement conditions.

Building Regulations Approval is required for most work involving building operations and/or structural alterations. It is the applicant's responsibility to find out if the work permitted by this planning permission needs approval under the Building Regulations, and if necessary to submit an application. If you are not the applicant, can you please ensure the applicant is aware of this requirement. Contact Building Control on Tel No: (01484) 221550 for more information.

It is the applicant's responsibility to find out whether any works approved by this planning permission, which involve excavating or working near public highway and any highway structures including retaining walls, will require written approval from the Council's Highways Structures Section. Please contact the Highways Structures Section on Tel No. 01484-221000 Ext 74199 for further advice on this matter.

Details Reserved by Condition

- This permission has been granted subject to conditions. Some of the conditions may require you to submit further details. These conditions normally contain the wording "submitted to and approved in writing by the Local Planning Authority".
- You can apply online for approval of these details at the Planning Portals website at www.planningportal.gov.uk. Alternatively, the forms and supporting guidance for submitting an application can be found online at www.kirklees.gov.uk/planning.
- This Authority recognises the need to ensure that you are able to develop the site as effectively and flexibly as possible. However, at the same time it must ensure that development is in accordance with the terms of the planning conditions and legal agreement and the expectations of elected members and local residents set through the decision process.
- You should note the triggers for compliance with the conditions of this planning permission. This Authority is committed to processing applications to discharge conditions in a timely manner. It is important to ensure that submissions are made as far in advance of the trigger to allow time for adequate consultation, discussion and in some circumstances publicity.

- **It is important that applications to discharge conditions are accompanied by sufficient information to enable this Authority and its consultees to fully consider and determine the proposals. Whilst officers will endeavour to negotiate solutions, failure to provide a comprehensive submission may result in delay and refusal of the application.**
- **If you commence work without discharging conditions you are at risk of enforcement action and invalidating your permission if the planning condition is a pre commencement condition.**

Development within a Coal Mining Area

The proposed development lies within an area that has been defined by the Coal Authority as containing coal mining features at surface or shallow depth. These features may include: mine entries (shafts and adits); shallow coal workings; geological features (fissures and break lines); mine gas and former surface mining sites. Although such features are seldom readily visible, they can often be present and problems can occur, particularly as a result of new development taking place.

Any form of development over or within the influencing distance of a mine entry can be dangerous and raises significant land stability and public safety risks. As a general precautionary principle, the Coal Authority considers that the building over or within the influencing distance of a mine entry should be avoided. In exceptional circumstance where this is unavoidable, expert advice must be sought to ensure that a suitable engineering design which takes into account all the relevant safety and environmental risk factors, including mine gas and mine-water. Your attention is drawn to the Coal Authority Policy in relation to new development and mine entries available at:

www.gov.uk/government/publications/building-on-or-within-the-influencing-distance-of-mine-entries

Any intrusive activities which disturb or enter any coal seams, coal mine workings or coal mine entries (shafts and adits) requires a Coal Authority Permit. Such activities could include site investigation boreholes, excavations for foundations, piling activities, other ground works and any subsequent treatment of coal mine workings and coal mine entries for ground stability purposes. Failure to obtain a Coal Authority Permit for such activities is trespass, with the potential for court action.

If any coal mining features are unexpectedly encountered during development, this should be reported immediately to the Coal Authority on 0345 762 6848. Further information is available on the Coal Authority website at:

www.gov.uk/government/organisations/the-coal-authority

The application has been publicised by notice(s) in the vicinity of the site. It is respectfully requested that the notice(s) now be removed and responsibly disposed of to avoid harm to the appearance of the area

Appeals to the Secretary of State

- If you are aggrieved by the decision of your Local Planning Authority to grant it subject to conditions, then you can appeal to the Secretary of State under section 78 of the Town and Country Planning Act 1990.
- If an enforcement notice is served relating to the same or substantially the same land and development as in your application and if you want to appeal against your Local Planning Authority's decision on your application, then you must do so within:
 - i) 28 days of the date of service of the enforcement notice, or
 - ii) within the specified period, starting on the date of this notice,whichever period expires earlier.
- If you want to appeal against your Local Planning Authority's decision then you must do so within the specified period, starting on the date of this notice.
- The "specified period" is 12 weeks where the development relates to a "minor commercial application" as defined within the Town and Country Planning (Development Management Procedure) Order 2010 (as amended), or 6 months in any other case.
- Appeals must be made using a form which you can get from the Secretary of State at Temple Quay House, 2 The Square, Temple Quay, Bristol BS1 6PN (Tel: 0303 444 5000) or online at <https://www.gov.uk/appeal-planning-decision>. Further information on the Planning Appeal process can be found online at the Planning Inspectorates website <https://www.gov.uk/government/organisations/planning-inspectorate>.
- You must use the correct Planning Appeal Form when making your appeal. If requesting forms from the Planning Inspectorate, please state the type of application that the appeal relates to so they can send you the appeal form you require.
- The Secretary of State can allow a longer period for giving notice of an appeal, but he will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal.
- The Secretary of State need not consider an appeal if it seems to him that the Local Planning Authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.
- In practice, the Secretary of State does not refuse to consider appeals solely because the Local Planning Authority based their decision on a direction given by him.

Please note, only the applicant possesses the right of appeal.

Purchase Notices

- If either the Local Planning Authority or the Secretary of State refuses permission to develop land or grants it subject to conditions, the owner may claim that he can neither put the land to a reasonably beneficial use in its existing state nor render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted.

In these circumstances, the owner may serve a purchase notice on the Council. This notice will require the Council to purchase his interest in the land in accordance with the provisions of Part VI of the Town and Country Planning Act 1990.

An important part of improving our service is to review your feedback on the way that we have dealt with your planning application(s). Please take a couple of minutes to email your comments to dc.admin@kirklees.gov.uk so that we can work on continually improving our customer service. Thank you.

Dated: 16-Dec-2024
