Application for Planning Permission

Town and Country Planning Act 1990 (as amended)

Publication of applications on planning authority websites

Please note that the information provided on this application form and in supporting documents may be published on the Authority's website. If you require any further clarification, please contact the Authority's planning department.

Site Location

Disclaimer: We can only make recommendations based on the answers given in the questions.

If you cannot provide a postcode, the description of site location must be completed. Please provide the most accurate site description you can, to help locate the site - for example "field to the North of the Post Office".

Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

Description

Please describe details of the proposed development or works including any change of use

This application seeks full planning permission for the construction of an ECB approved non turf cricket practice facility.

The proposal relates to the erection of a two lane, enclosed, cricket net measuring 33m in length and 7.3m in width. The nets will stand 4m in height and will be constructed using porous matting on a granular aggregate base, surrounded a PE 50mm mesh netting, supported by galvanised steel poles set into ground sleeves. A pedestrian access gate is proposed to the end of the nets. The nets are proposed to enhance the training facilities available to Golcar Cricket Club to allow for a safe, performance training facility. The cricket nets will be accessed over the existing hard-standing peripheral club space, so no further hardstanding is required.

The existing practice cricket ends are now beyond reasonable repair for safe continued future use. The existing arrangement is difficult to maintain due to the constant wear to grass areas, the club have to partially remove the netting to mow the grass. The current nets are used by adults and junior cricketers and are open ended. The new nets would have longer sides and roof and be surrounded on all four sides by netting surrounds. The designers have confirmed that during normal use, the likelihood of a cricket ball exiting the controlled area is virtually impossible, thereby reducing, if not eliminating the danger to the public and neighbours. The new nets would be easier to maintain as they have a defined edge around their perimeter. The new facility would be securable using a gated pedestrian access point to control usage. Therefore, the facility only usable during designated agreed operating hours. The facility would typically be in seasonal use from April to September. The current and proposed facility is located at a considerable distance from neighbouring residential properties and there will be no adverse impacts in this regard.

The design is compliant with criteria set out by the sport's governing body, The English Cricket Board (ECB) specification TS6 - Technical Requirements and Performance Specification for non-Turf Cricket Pitches and Guidance Notes for Provision and Installation of Non-Turf Cricket Pitches and Net-Cage Facilities. Many installations are viewable throughout the country at leading clubs and schools.

Should planning permission not be granted, the existing on field nets would likely remain, resulting in a level of casual use that exists outside our control. The advantages of the proposal is the reduction of casual use and the removal of risk to the public as well as tidying up the existing dilapidated area. During organised club training, the enclosed nature of the new facility would enable activities to safely take place on the existing cricket outfield, as well as concurrently within the new facility. This would increase participation opportunities for the club and also provide a safe wet weather area to practise.

Has the work or change of use already started?

- ☐ Yes
☒ No

Existing Use

Please describe the current use of the site

Hard-standing peripheral club space currently used for overflow car parking and storage.

Is the site currently vacant?

- ☐ Yes
☒ No

Does the proposal involve any of the following? If Yes, you will need to submit an appropriate contamination assessment with your application.

Land which is known to be contaminated

- ☐ Yes
☒ No

Land where contamination is suspected for all or part of the site

- ☐ Yes
☒ No

A proposed use that would be particularly vulnerable to the presence of contamination

- ☐ Yes
☒ No

Materials

Does the proposed development require any materials to be used externally?

- ☐ Yes
☒ No

Pedestrian and Vehicle Access, Roads and Rights of Way

Is a new or altered vehicular access proposed to or from the public highway?

- ☐ Yes
☒ No

Is a new or altered pedestrian access proposed to or from the public highway?

- ☐ Yes
☒ No

Are there any new public roads to be provided within the site?

- ☐ Yes
☒ No

Are there any new public rights of way to be provided within or adjacent to the site?

- ☐ Yes
☒ No

Do the proposals require any diversions/extinguishments and/or creation of rights of way?

- ☐ Yes
☒ No

Vehicle Parking

Does the site have any existing vehicle/cycle parking spaces or will the proposed development add/remove any parking spaces?

- ☐ Yes
☒ No

Trees and Hedges

Are there trees or hedges on the proposed development site?

- ☒ Yes
☐ No

And/or: Are there trees or hedges on land adjacent to the proposed development site that could influence the development or might be important as part of the local landscape character?

- ☐ Yes
☒ No

You may need to provide a full tree survey, at the discretion of the local planning authority. If a tree survey is required, this and the accompanying plan should be submitted alongside the application.

The local planning authority should make clear on its website what the survey should contain, in accordance with the current 'BS5837: Trees in relation to design, demolition and construction - Recommendations'.

Assessment of Flood Risk

Is the site within an area at risk of flooding? (Check the location on the Government's [Flood map for planning](#). You should also refer to national [standing advice](#) and your local planning authority requirements for information as necessary.)

- ☐ Yes
☒ No

Is your proposal within 20 metres of a watercourse (e.g. river, stream or beck)?

- ☐ Yes
☒ No

Will the proposal increase the flood risk elsewhere?

- ☐ Yes
☒ No

How will surface water be disposed of?

- ☐ Sustainable drainage system
☐ Existing water course
☒ Soakaway
☐ Main sewer
☐ Pond/lake

Biodiversity and Geological Conservation

Is there a reasonable likelihood of the following being affected adversely or conserved and enhanced within the application site, or on land adjacent to or near the application site?

To assist in answering this question correctly, please refer to the help text which provides guidance on determining if any important biodiversity or geological conservation features may be present or nearby; and whether they are likely to be affected by the proposals.

a) Protected and priority species

- ☐ Yes, on the development site
☐ Yes, on land adjacent to or near the proposed development
☒ No

b) Designated sites, important habitats or other biodiversity features

- ☐ Yes, on the development site
☐ Yes, on land adjacent to or near the proposed development
☒ No

c) Features of geological conservation importance

- ☐ Yes, on the development site
- ☐ Yes, on land adjacent to or near the proposed development
- ☒ No

Supporting information requirements

Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.

Your local planning authority will be able to advise on the content of any assessments that may be required.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in [Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 \(as amended\)](#)) would apply?

- ☐ Yes
- ☒ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in [The Environment Act 2021](#): "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:

Development subject to the de minimis exemption (development below the threshold)

What best describes the size of your site?:

Over 25 square metres

Please justify the reason why biodiversity net gain does not apply:

We have spoken with Oliver Lewis of Joe's Blooms who has provided us with evidence in email format that the site is on hardstanding and as such 'de minimis' should apply.

Note: Please read the help text for further information why developments may be exempt or not in scope.

Foul Sewage

Please state how foul sewage is to be disposed of:

- ☐ Mains sewer
- ☐ Septic tank
- ☐ Package treatment plant
- ☐ Cess pit
- ☒ Other
- ☐ Unknown

Other

Not applicable.

Are you proposing to connect to the existing drainage system?

- ☐ Yes
- ☐ No
- ☒ Unknown

Waste Storage and Collection

Do the plans incorporate areas to store and aid the collection of waste?

- ☐ Yes
- ☒ No

Have arrangements been made for the separate storage and collection of recyclable waste?

- ☐ Yes
- ☒ No

Trade Effluent

Does the proposal involve the need to dispose of trade effluents or trade waste?

- ☒ Yes
- ☐ No

If Yes, please describe the nature, volume and means of disposal of trade effluents or waste

We are advised that spoil removal from site can be an open book exercise and if necessary a local grab wagon contractor may be required to remove a quantity of soil which will be disposed of under their existing arrangements.

Residential/Dwelling Units

Does your proposal include the gain, loss or change of use of residential units?

- ☐ Yes
- ☒ No

All Types of Development: Non-Residential Floorspace

Does your proposal involve the loss, gain or change of use of non-residential floorspace?

Note that 'non-residential' in this context covers all uses except Use Class C3 Dwellinghouses.

- ☐ Yes
- ☒ No

Employment

Are there any existing employees on the site or will the proposed development increase or decrease the number of employees?

- ☐ Yes
☒ No

Hours of Opening

Are Hours of Opening relevant to this proposal?

- ☐ Yes
☒ No

Industrial or Commercial Processes and Machinery

Does this proposal involve the carrying out of industrial or commercial activities and processes?

- ☐ Yes
☒ No

Is the proposal for a waste management development?

- ☐ Yes
☒ No

Hazardous Substances

Does the proposal involve the use or storage of Hazardous Substances?

- ☐ Yes
☒ No

Site Visit

Can the site be seen from a public road, public footpath, bridleway or other public land?

- ☒ Yes
☐ No

If the planning authority needs to make an appointment to carry out a site visit, whom should they contact?

- ☐ The agent
☒ The applicant
☐ Other person

Pre-application Advice

Has assistance or prior advice been sought from the local authority about this application?

- ☒ Yes
☐ No

If Yes, please complete the following information about the advice you were given (this will help the authority to deal with this application more efficiently):

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff
- (b) an elected member
- (c) related to a member of staff
- (d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

- ☐ Yes
- ☒ No

Ownership Certificates and Agricultural Land Declaration

Certificates under Article 14 - Town and Country Planning (Development Management Procedure) (England) Order 2015 (as amended)

Please answer the following questions to determine which Certificate of Ownership you need to complete: A, B, C or D.

Is the applicant the sole owner of all the land to which this application relates; and has the applicant been the sole owner for more than 21 days?
E.g. All the land is owned by a single individual

- ☒ Yes
- ☐ No

Is any of the land to which the application relates part of an Agricultural Holding?

- ☐ Yes
- ☒ No

Certificate Of Ownership - Certificate A

I certify/The applicant certifies that on the day 21 days before the date of this application nobody except myself/ the applicant was the owner* of any part of the land or building to which the application relates, and that none of the land to which the application relates is, or is part of, an agricultural holding**

* "owner" is a person with a freehold interest or leasehold interest with at least 7 years left to run.

** "agricultural holding" has the meaning given by reference to the definition of “agricultural tenant” in section 65(8) of the Act.

NOTE: You should sign Certificate B, C or D, as appropriate, if you are the sole owner of the land or building to which the application relates but the land is, or is part of, an agricultural holding.
