### Condition 3 - Conservation Style Roof Lights

### VELUX conservation roof windows

The [conservation roof window](#) offers a sleek black exterior and a glazing bar, seamlessly fitting into traditional roofs, as well as giving modern roofs a more classic edge. It provides natural light and ventilation, while matching your home's traditional look. With a manual opening and ventilation flap, it's ideal for enhancing comfort without compromising the original character of your space. You can choose between a top-hung or centre-pivot roof window option to suit your preferences.
