DEVELOPMENT MANAGEMENT

Town and Country Planning Act 1990 (as amended) – SECTION 73

DELEGATED DECISION TO DETERMINE PLANNING APPLICATIONS TO CARRY OUT DEVELOPMENT WITHOUT COMPLIANCE WITH PLANNING CONDITIONS PREVIOUSLY ATTACHED

Reference No:	2026/70/91609/E
Site Address:	land at, Westfield Farm, Barnsley Road, Flockton, Huddersfield, WF4 4DW
Description:	Variation of condition 2 (plans) on previous permission 2019/92238 for demolition of existing buildings, renovation of farmhouse and erection of 4no dwellings including garages and formation of new access
Recommending Officer:	Nicole Helliwell

DECISION – APPROVE VARIATION OF CONDITION 2

**I hereby authorise the approval of this application for the reasons set
out in the officer's report and recommendation annexed below in
respect of the above matter.**

Sarah Longbottom

AUTHORISED OFFICER

Date: 27-Aug-2026

Officer Report

Reference No. 2026/70/91609/E

Site Address: Land at, Westfield Farm, Barnsley Road, Flockton, Huddersfield, WF4 4DW

Proposal: Variation of condition 2 (plans) on previous permission 2019/92238 for demolition of existing buildings, renovation of farmhouse and erection of 4no dwellings including garages and formation of new access

Site Description

The application site relates to a parcel of land located at Westfield Farm in Flockton, Huddersfield. The site is unallocated on the Kirklees Proposal Plan, however, a small portion of the southern part of the site is located within the designated Green Belt. The surrounding area is primarily residential and is characterised by stone built properties of a traditional style. The site is not within a conservation area, nor are there any listed buildings or Public Rights of Way (PROW) within close proximity to the site.

Description of Proposal

The applicant seeks consent to vary condition 2 of previous permission 2019/92238 for the demolition of existing buildings, renovation of farmhouse, erection of 4no dwellings including garages and formation of new access, which was granted on 9th December 2019.

Condition 2 of permission 2019/92238 relates to the plans and details approved under the application and reads as follows:

“2. The development hereby permitted shall be carried out in complete accordance with the plans and specifications schedule listed in this decision notice, except as may be specified in the conditions attached to this permission, which shall in all cases take precedence.

Reason: *For the avoidance of doubt as to what is being permitted and so as to ensure the satisfactory appearance of the development on completion, and to accord Policies LP21, LP24 and LP59 of the Kirklees Local Plan and government guidance contained within the National Planning Policy Framework.”*

This Section 73 application seeks to vary the approved plans for Units 4 and 5 (previously units 3 and 4 under planning permission 2019/92238) due to changes in materials and design. The proposed alterations are as follows:

- Alterations to create two detached split level properties
- Erection of front canopies
- Alterations to the design of the dwellings
- Installation of front and rear dormer extensions

Relevant Planning History

Consultation Responses

Not Applicable.

Policy

Section 38(6) of the Planning and Compulsory Purchase Act 2004 requires that planning applications are determined in accordance with the Development Plan unless material considerations indicate otherwise. The statutory Development Plan for Kirklees is the Local Plan (adopted 27th February 2019).

The site is UNALLOCATED on the Kirklees Local Plan Proposals Map, however, a small portion of the southern part of the site is located within the designated Green Belt. The most relevant policies for consideration in this case are:

Kirklees Local Plan Policies

- **LP 1** - Achieving Sustainable Development
- **LP 2** - Place Shaping
- **LP 3** - Location of New Development
- **LP 7** - Efficient and Effective Use of Land and Buildings
- **LP 11** - Housing Mix and Affordable Housing
- **LP 20** - Sustainable Travel
- **LP 21** - Highway Safety and Access
- **LP 22** - Parking
- **LP 24** - Design
- **LP 28** - Drainage
- **LP 30** - Biodiversity and Geodiversity
- **LP 51** - Protection and Improvement of Local Air Quality
- **LP 52** - Protection and Improvement of Environmental Quality
- **LP 53** - Contaminated and Unstable Land
- **LP 59** - Brownfield Sites in the Green Belt

National Policies and Guidance:

National planning policy and guidance is set out in National Policy Statements, primarily the National Planning Policy Framework (NPPF) updated August 2026, the Planning Practice Guidance Suite (PPGS) first launched 6th March 2014 together with Circulars, Ministerial Statements and associated technical guidance. The NPPF constitutes guidance for local

planning authorities and is a material consideration in determining applications.

- **Chapter 4** - Achieving Sustainable Development
- **Chapter 5** - Meeting the Challenge of Climate Change
- **Chapter 6** - Delivering a Sufficient Supply of Homes
- **Chapter 14** - Achieving Well-Designed Places
- **Chapter 15** - Promoting Sustainable Transport
- **Chapter 19** - Conserving and Enhancing the Natural Environment

Other Guidance Documents:

- Kirklees Highways Design Guide (2019)
- Housebuilders Design Guide (2021) - Nationally Described Space Standards
- National Design Guide
- Biodiversity Net Gain Technical Advice Note (2021)
- Planning Applications Climate Change Guidance (2021)
- West Yorkshire Low Emissions Strategy and Air Quality and Emissions Technical Planning Guidance (2016)

Assessment

1. Principle of Development

Section 73 of the Town and Country Planning Act 1990 allows for the variation or removal of a condition of a previous permission.

The principle of development for the demolition of existing buildings, renovation of farmhouse, erection of 4no dwellings including garages and formation of new access) was established under permission 2019/92238. As such, it is considered that the principle of the development remains established by way of this permission. This assessment will deal with the merits of the proposed variations only.

1. Impact on Visual Amenity

General design considerations are set out in Policy LP24 of the Kirklees Local Plan and Chapter 14 of the NPPF, which seek to secure good design in all developments by ensuring that they respect and enhance the character of the townscape and protect amenity. Policy LP24 of the Kirklees Local Plan states that 'the form, scale, layout and details of all development respects and enhances the character of the townscape, heritage assets and landscape.' The Housebuilders Design Guide SPD also sets out design principles which need to be considered for new dwellings to ensure that they are of an appropriate design and scale.

Alterations to Design and Scale of the Approved Dwellings

The submitted plans confirm that external alterations are proposed to create two detached split level properties. Units 4 and 5 would retain their traditional appearance from the northern elevation and would have a more contemporary appearance to the south. Whilst the overall scale and design of the dwellings would be altered as part of the variation, the resultant appearance is considered acceptable given that the dwellings would have limited visibility from public vantage points.

Front and Rear Dormer Extensions

The dormer extensions would be located within the front and rear roof planes and would be of a traditional pitched roof design. Although no details have been provided regarding the material palette, a condition has been added requiring the dormers to be faced in materials to match the roof of the approved dwellings. Although the dormers would not be set back from the eaves, they would be sited below the ridge line and would not dominate the front and rear roof planes. The dormer windows would also be of an appropriate size and design and would generally align with the existing fenestration. Whilst it is noted that the area is generally devoid of dormer extensions, in this instance, the dormers are considered acceptable given the lack of uniformity within the street scene and that they would have limited visibility from public vantage points. Therefore, the proposed development would be acceptable from a visual amenity perspective.

Front Canopies

The proposed canopies would extend approximately 1m from the northern elevations of Units 4 and 5 and would have an overall height of approximately 3.5m. Whilst it is acknowledged that front canopies are not a common feature within the street scene, it is noted that the structures would have a modest scale and would not appear overly prominent from public vantage points. Therefore, it is considered that the proposed amendment would be acceptable in terms of visual amenity.

In view of the above, It is considered that the variation to the development proposed is acceptable from a visual amenity perspective and is in accordance with Policies LP24 of the Kirklees Local Plan and the aims of the NPPF.

2. Impact on Residential Amenity

Section B and C of LP24 states that alterations to existing buildings should: "...maintain appropriate distances between buildings' and '...minimise impact on residential amenity of future and neighbouring occupiers". Further to this, Paragraph d of Policy L2 of the National Planning Policy Framework states that *"proposals should maintain safe access and egress for occupiers and*

users, and acceptable living standards for residents and neighbours in terms of access to daylight, sunlight, privacy and external amenity space.”

Principle 6 of the Kirklees Housebuilders Design Guide SPD also states that: *“Residential layouts must ensure adequate privacy and maintain high standards of residential amenity, to avoid negative impacts on light, outlook and to avoid overlooking.”*

Impact on Unit 1 and 2

Unit 1 and 2 are residential properties approved to the north of the application site. The submitted plans confirm that Unit 1 and 2 would occupy a position approx. 17m from the front elevation of Units 4 and 4. Although the separation distance would fall short of the 21m recommended within the Kirklees Housebuilders Design Guide SPD, it is taken into consideration that the approved relationship already falls short of this distance (2019/92238). Therefore, given that precedence has already been established within the street scene, the amendments are not considered to have a greater impact on the neighbouring occupants than the originally approved scheme.

On this basis, it is considered that the proposed development would accord with Policy LP24 of the Kirklees Local Plan, Principles 6 and 16 of the Kirklees Housebuilders Design Guide SPD and Paragraph D of L2 of the National Planning Policy Framework.

3. Impact on Highway Safety

Local Plan Policies LP21 and LP22 of the Kirklees Local Plan are relevant and seek to ensure that proposals do not have a detrimental impact on highway safety and provide sufficient parking. Furthermore, Paragraph 4 of TR6 of the NPPF states that development proposals should be refused if they would have a severe adverse impact on the transport network or an unacceptable impact on highway safety.

Whilst no amendments are proposed to the access of the approved scheme, it is noted that the integral garages would be reduced in size as part of the application. However, the submitted plans demonstrate that off road parking would be retained at both units for three vehicles which would be an acceptable provision for a four bedroomed dwellinghouse. Therefore, the impact on highway safety is still considered acceptable and the proposal would comply with Policies LP21 and LP22 of the Kirklees Local Plan, Principle 12 of the Kirklees Housebuilders Design Guide SPD, advice contained within the Kirklees Highways Design Guide SPD and Chapter 15 of the NPPF.

4. Other Matters

With regard to other matters that were assessed as part of the previous planning permission, the proposal is unchanged in relation to these aspects and any conditions imposed in regard to these matters to make the development acceptable will be repeated as part of this application.

Conditions Review

As the application is a Section 73 application to vary conditions, it is necessary to re-impose all conditions which remain relevant.

The following conditions relating to the original permission will be re-issued as they are considered to remain relevant:

- 7. Parking Areas
- 8. Bin Collection Point
- 9. Electric Vehicle Charging Points
- 16. Roosting Bats/Bat Roosts

The following conditions relating to the original permission shall be reworded:

- 2. Approved plans (The plans and specification table will be amended to reflect the plans approved under this Section 73 application)
- 3. Samples of Walling and Roofing Materials (Wording amended to reflect changes to the NPPF and to reflect submitted material samples)
- 4. Landscape Plan (Wording amended to reflect changes to the NPPF)
- 5. Details of Boundary Treatments (Wording amended)
- 6. Permitted Development Rights (Wording amended to reflect changes to the NPPF)
- 11. Remediation Strategy (Wording amended to reflect changes to the NPPF)
- 12. Remediation (Wording amended to reflect changes to the NPPF)
- 13. Validation Report (Wording amended to reflect changes to the NPPF)
- 14. Noise Report
- 15. Bat Survey Report (Wording amended to reflect changes to the NPPF)
- 17. Flood Risk and Drainage Statement (Wording amended to reflect changes to the NPPF)

The following conditions relating to the original permission shall be removed:

- 1. Time
- 10. Phase II Intrusive Site Investigation Report (Discharged under app no. 2022/93299)

5. Representations

No representations were received following the statutory publicity.

6. Negotiations

No amendments were sought or received during the course of the application.

7. Conclusion

This proposal is a Section 73 Variation of Condition application to vary condition 2 (development in accordance with the approved plans). In determining a S73, the Local Planning Authority must only consider the 'disputed' condition that is the subject of the application – it is not a complete re-consideration of the application. Therefore, it is a consideration of Condition 2 only. As detailed within the report, given the acceptable design and lack of harm in terms of visual and residential amenity, the variation is considered to be acceptable.

The NPPF has introduced a presumption in favour of sustainable development. The policies set out in the NPPF taken as a whole constitute the Government's view of what sustainable development means in practice. This application has been assessed against the relevant policies in the development plan and other material considerations. The proposal would remain in accordance with the development plan and there are no material considerations to indicate otherwise. The development would therefore constitute sustainable development and it is recommended for approval.

Recommendation: Approve

Decision Authorisation: Delegated Powers

Application Number: 2026/91609

Officer Recommendation: Grant Variation of Condition 2

Conditions and Reasons:

1. The development hereby permitted shall be carried out in complete accordance with the plans and specifications schedule listed in this decision notice, except as may be specified in the conditions attached to this permission, which shall in all cases take precedence.

Reason: For the avoidance of doubt as to what is being permitted and so as to ensure the satisfactory appearance of the development on completion, and to accord Policies LP21, LP24 and LP59 of the Kirklees Local Plan and government guidance contained within the National Planning Policy Framework.

2. The dwellings hereby approved shall be faced in tumbled natural stone from Whitehall Stone, Bradford and the roof of the dwellings shall be finished in Melano Spanish Blue-Black Natural Slate. The materials of construction shall thereafter be retained for the lifetime of the development.

Reason: In the interests of visual amenity and to accord with Policy LP24 of the Kirklees Local Plan and guidance contained within Chapter 14 of the National Planning Policy Framework.

3. A landscape plan (hard & soft landscaping) shall be submitted to the Local Planning Authority before any landscape works take place. The development shall then be carried out in complete accordance with the approved details before the dwelling is first brought into use and shall be retained thereafter.

Reason: In the interests of visual amenity and to preserve the openness of the adjacent Green Belt, in accordance with Policy LP 24 of the Kirklees Local Plan and guidance contained within Chapters 13 and 14 of the National Planning Policy Framework.

4. Before the development is brought into use, full details of all boundary treatments shall be submitted to and approved in writing by the Local Planning Authority. The development shall thereafter be completed in accordance with the approved details before the dwellings are first brought into use and thereafter retained.

Reason: In the interests of visual amenity and to preserve the openness of the adjacent Green Belt, in accordance with Policies LP21 and LP24 of the Kirklees Local Plan and guidance contained within Chapters 13 and 14 of the National Planning Policy Framework.

5. Notwithstanding the provisions of the Town and Country Planning General Permitted Development Order 2015 as amended (or any Order revoking or re-enacting that Order) no development or alterations included within Classes A-E of Part 1 of Schedule 2 to that Order shall be carried out without the prior written consent of the Local Planning Authority.

Reason: To ensure that unsatisfactory extensions do not result in close overlooking of adjoining properties and to preserve the openness of the Green Belt, in accordance with Policies LP 24 and LP59 of the Kirklees Local Plan and government guidance contained within Chapters 13 and 14 of the National Planning Policy Framework.

6. The development shall not be brought into use until the internal vehicular/pedestrian shared surfaces and parking/driveways have been surfaced and drained in accordance with the Communities and Local Government; and Environment Agency's Guidance on the permeable surfacing of front gardens (driveways)' published 13 May 2009 (ISBN 9781409804864) as amended or superseded; and retained thereafter.

Reason: In the interests of highway safety and to accord with Policy LP21 of the Kirklees Local Plan.

7. The development shall not be brought into use until a bin collection point has been provided adjacent the site entrance to enable bins to be collected without obstruction to the proposed footway or proposed private driveway.

Reason: To ensure an adequate layout in the interests of highway safety, in accordance with Policies LP 21 and LP24 of the Kirklees Local Plan.

8. Before the electrical system is installed a scheme detailing the dedicated facilities that will be provided for charging electric vehicles and other ultra-low emission vehicles shall be submitted to and approved in writing by the Local Planning Authority. The scheme shall meet at least the following minimum standard for numbers and power output:-

- A Standard Electric Vehicle Charging point (of a minimum output of 16A/3.5kW) for each residential unit that has a dedicated parking space
- One Standard Electric Vehicle Charging Point for every 10 unallocated residential parking spaces

Buildings and parking spaces that are to be provided with charging points shall not be brought into use until the charging points are installed and operational. Charging points installed shall be retained thereafter.

Reason: In order to meet the Council's sustainability objectives in accordance with the aims of Policies LP24 and LP51 of the Kirklees Local Plan and the aims of the National Planning Policy Framework.

9. Where site remediation is recommended in the Phase II Intrusive Site Investigation Report approved under planning application reference no. 2022/93299, further groundworks shall not commence until a Remediation Strategy has been submitted to and approved in writing by the Local Planning Authority. The Remediation Strategy shall include a timetable for the implementation and completion of the approved remediation measures.

Reason: To ensure the site is safe and stable to accommodate development, and that adequate information pertaining to ground conditions and coal mining legacy is available to enable appropriate remedial and mitigatory measures to be identified and carried out before building works commence on site, in accordance with Policy LP53 of the Kirklees Local Plan and guidance contained within Chapter 19 of the national Planning Policy Framework.

10. Remediation of the site shall be carried out and completed in accordance with the Remediation Strategy approved pursuant to condition 9. In the event that remediation is unable to proceed in accordance with the approved Remediation Strategy or contamination not previously considered in either the Preliminary Risk Assessment or the Phase II Intrusive Site Investigation Report is identified or encountered on site, all groundworks in the affected area (except for site investigation works) shall cease immediately and the Local Planning Authority shall be notified in writing within 2 working days. Works shall not recommence until proposed revisions to the Remediation

Strategy have been submitted to and approved in writing by the Local Planning Authority. Remediation of the site shall thereafter be carried out in accordance with the approved revised Remediation Strategy.

Reason: To ensure the site is safe and stable to accommodate development, and that adequate information pertaining to ground conditions and coal mining legacy is available to enable appropriate remedial and mitigatory measures to be identified and carried out before building works commence on site, in accordance with Policy LP53 of the Kirklees Local Plan and guidance contained within Chapter 19 of the National Planning Policy Framework. This a pre-commencement condition to ensure appropriate timing of the necessary works.

11. Following completion of any measures identified in the approved Remediation Strategy or any approved revised Remediation Strategy a Validation Report shall be submitted to the Local Planning Authority. No part of the site shall be brought into use until such time as the remediation measures have been completed for the site in accordance with the approved Remediation Strategy or the approved revised Remediation Strategy and a Validation Report in respect of those remediation measures has been approved in writing by the Local Planning Authority. Where validation has been submitted and approved in stages for different areas of the whole site, a Final Validation Summary Report shall be submitted to and approved in writing by the Local Planning Authority.

Reason: To ensure the site is safe and stable to accommodate development, and that adequate information pertaining to ground conditions and coal mining legacy is available to enable appropriate remedial and mitigatory measures to be identified and carried out before building works commence on site, in accordance with Policy LP53 of the Kirklees Local Plan and guidance contained within Chapter 19 of the national Planning Policy Framework.

12. The development shall be completed in accordance with the document titled 'Sound Measurements and Recommendations' (dated 23rd August 2022) and retained thereafter.

Reason: To protect the amenity of future occupiers of the development, in accordance with Policy LP24 of the Kirklees Local Plan.

13. All ecological measures described in Section 6.3 of the Westfield Farm, Flockton Bat Survey Report (dated 12/08/2019), as already submitted with the planning application and agreed in principle with the Local Planning Authority prior to determination, shall be implemented in full and all features created will be retained in that manner thereafter. Measures to be implanted include the following.

- a. Constriction of a bat loft, to be completed within the specified timescale.
- b. Destruction of existing roosts, within specified timescale.

- c. Installation of four bat boxes.
- d. Implementation of a lighting design in accordance with the identified lighting constraints.

Reason: To ensure significant ecological harm is prevented in accordance with Policy LP30 of the Kirklees Local Plan and Chapter 19 of the National Planning Policy Framework.

14. Any works that directly or indirectly affect roosting bats or bat roosts shall not take place in any circumstances unless the Local Planning Authority has been provided with :

- a licence issued by Natural England pursuant to Regulation 55 of The Conservation of Habitats and Species Regulations 2017 authorising the specified activity/development to go ahead

Reason: To ensure the proposed works do not result in a criminal offence under the Conservation of Habitats and Species Regulations 2017.

15. The development shall be carried out in accordance with the Flood Risk and Drainage Statement undertaken by Stevenson Associates and subsequent soakaway tests.

Reason: To ensure the adequate drainage of surface water from the site, in accordance with Policy LP28 of the Kirklees Local Plan and guidance contained within Chapter 5 of the National Planning Policy Framework.

16. Notwithstanding the submitted plans and information, the front and rear dormer extensions hereby approved shall be constructed in materials to match the roofs of the approved dwellings and retained thereafter.

Reason: In the interests of visual amenity and to accord with Policy LP24 of the Kirklees Local Plan and guidance contained within Chapter 14 of the National Planning Policy Framework.

NOTE: Any retaining features affecting the highway will require formal technical approval by the Council as the Highway Authority. Please contact Farhad Khatibi (Team Leader) on 01484 221000 who will be able to advise you of the necessary requirements in more detail.

NOTE: All contamination reports shall be prepared in accordance with Model Procedures for the Management of Land Contamination – Contaminated Land report 11 (CLR11), National Planning Policy Framework (NPPF) and the Council's Advice for Development documents or any subsequent revisions of those documents.

NOTE Noisy construction related activities shall not take place outside the hours of: 07.30 to 18.30 hours Mondays to Fridays 08.00 to 13.00hours , Saturdays With no noisy activities on Sundays or Public Holidays

NOTE: Kirklees Council has powers under Section 60 of the Control of Pollution Act 1974 to control noise from construction sites and may serve a notice imposing requirements on the way in which construction works are to be carried out. It has additional powers under Sections 80 of the Environmental Protection Act 1990 to prevent statutory nuisance including noise, dust, smoke and artificial light and must serve an abatement notice when it is satisfied that a statutory nuisance exists, or is likely to occur or recur. Failure to comply with a notices served using the above mentioned legislation would be an offence for which the maximum fine on summary conviction is unlimited.

NOTE: Documents in the plans and specifications schedule below reflect amendments made during the life of the application. Not all documents were (or needed to be) updated to reflect these amendments.

Pursuant to article 35 (2) of the Town and Country Planning (Development Management Procedure) Order 2015 and guidance in the National Planning Policy Framework, the Local Planning Authority have, where possible, made a pre-application advice service available, complied with the Kirklees Development Management Charter 2024 and otherwise actively engaged with the applicant in dealing with the application. In this case, the design of the original scheme has been found acceptable. No further amendments or details were sought thereafter. The applicant's agent has confirmed their agreement to the amended conditions.
