I fully support this planning application for the proposed extension to provide dedicated facilities for the washing and preparation of deceased individuals before burial. I have personally experienced the need for these facilities. When my cousin passed away, our family found that there was insufficient space to carry out this important and dignified process. At what was already a very difficult and emotional time, the lack of adequate facilities added unnecessary stress and made it more challenging for family members and volunteers involved. This extension would provide a respectful, appropriate, and much-needed space to support bereaved families during one of the most difficult moments of their lives. It would ensure that religious and cultural practices can be carried out with dignity while improving the experience for families and those providing this essential service. The place of worship plays an important role in our local community, and these facilities are not only for regular worshippers but for anyone in the community who requires them at the time of bereavement. The extension will help meet a genuine and growing need, providing a compassionate and practical benefit to local families for many years to come. For these reasons, I respectfully ask the planning authority to approve this application.
