Subject: Clarification required regarding application 2026/91657

CAUTION: External email. Do not click links or open attachments unless you recognize the sender and know the content is safe.

Dear Katie Chew,

I am writing regarding application **2026/91657** for Plot 23.

The application appears to be described as adding a double garage. However, the submitted drawing **SK15 Rev B** appears to show other matters as well.

Please could you confirm whether the Council is treating this application as:

1. a **garage-only amendment**; or
2. an application to approve **everything shown on SK15 Rev B**, including any non-garage changes?

This clarification is important because, if SK15 Rev B is approved under Condition 2, I am concerned that all changes shown on that drawing may be treated as approved, not just the garage.

Given that the public consultation period is already running, I would be grateful for a prompt response, as clarification of the application's scope is important to enable meaningful public comment before the deadline.

Please treat this email as a formal representation on the application file.

I ask that none of my personal details be made public.

Your sincerely,
