Yorkshire Style Natural Stone Roof Slates (22mm)

Hand-selected Indian stone roof slates in a shade to suit you

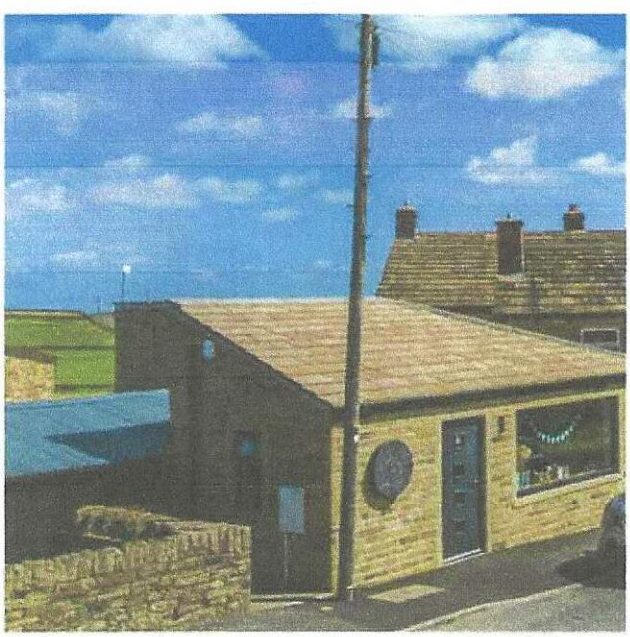

Our 22mm Yorkshire Style roofing range leverages the highest quality Indian stone roof slates in a wide range of colour options designed to match the look and feel of traditional Yorkshire stone roof tiles. These shades are either naturally occurring or enhanced in our factory to suit specific designs or customer requirements. A **lighter-weight 18mm option** is also available.

Each roof slate has a quarry-fettled edge and is calibrated in thickness to sit flatly and neatly on the roof. For ease of

installation, each of these natural stone roof tiles is pre-drilled at 8mm to accommodate a 7mm aluminium fixing.

We supply a batten plan that is specific to your roof as standard, or we can easily accommodate a pre-designed batten plan thanks to the huge range of slate sizes kept in stock. We are more than happy to supply colour samples and sample roof slates that can be set up and left on site for assessment – especially for larger or more sensitive projects.

Our entire roofing range is also covered by our comprehensive lifetime guarantee, adding peace of mind and value to your property.

Colour options: The look and feel of Yorkshire stone roofing

Traditional Buff

Our Traditional Buff natural stone roof slates are hand-selected to ensure a subtle mix of colours and hues, incorporating an attractive blend of greys, greens and browns. This contemporary and attractive shade is an ideal option for new-build properties and renovations.

Yorkshire Buff

Our Yorkshire Buff natural stone slates are a popular choice for new-build properties or projects where an entirely new stone finish is required. This striking shade incorporates a unique blend of warm buff tones, hand-selected to ensure there are minimal variations in colour between the slates.

Light Aged Yorkstone

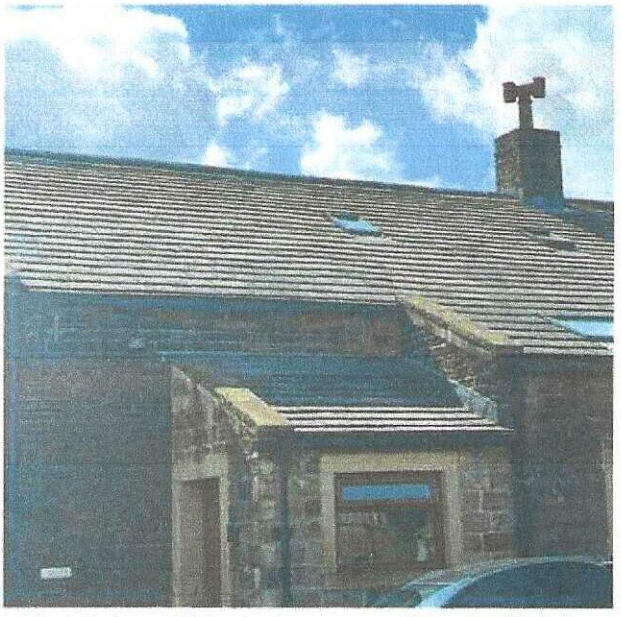

Aged Yorkstone continues to be one of our most popular natural stone ranges.

slates are a popular choice with developers, architects and homeowners alike.

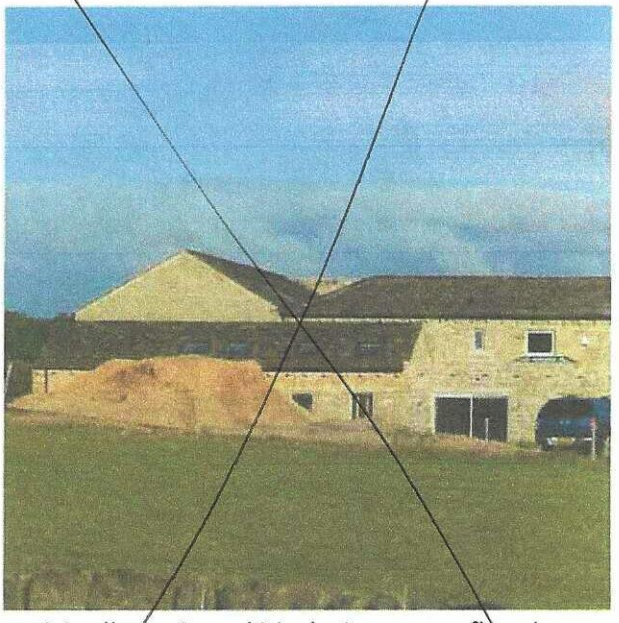

Need something different?

If none of our roofing shades is exactly what you're looking for, why not ask about a bespoke blend? Usually offered at no extra cost, we are happy to work with you to create a shade that suits your project. Just send us a photograph of what you're looking for and we'll take it from there.
