Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

Your local planning authority will be able to advise on the content of any assessments that may be required.

## Biodiversity net gain

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in [Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 \(as amended\)](#)) would apply?

- ☐ Yes
- ☒ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in [The Environment Act 2021](#): "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

**Reason biodiversity net gain does not apply:**  
Self-build and custom build development

**Are you building more than nine houses?:**  
No

**Is the total size over 0.5 hectares?:**  
No

**Do all buildings meet the definition of self-build or custom housebuilding as set out in [section 1\(A1\) of the Self-build and Custom Housebuilding Act 2015](#)?:**  
Yes

**Does your Local Planning Authority require applicants for self-build and custom-build development to evidence their eligibility?:**  
Yes

**Please justify the reason why biodiversity net gain does not apply:**  
The plot for the development is 0.166 hectares, which means it is exempt from biodiversity enhancement. Therefore, no Biodiversity Net Gain Statement and Matrix is submitted with the application.

Note: Please read the help text for further information why developments may be exempt or not in scope.
