While operating at a different location previously, the applicant always operated his business respectfully for his neighbours. His business was a real asset for the local community and economy and expect he will continue to do so. Third spaces for communities to get together and socialise are being lost in our area, regularly turned over for housing development. It is important to retain and encourage our third spaces to keep a sense of community in our local area so I am completely in favour of this proposed change of use.
