Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	Yes
<p>This agricultural building is inappropriate for the site proposed. It is on the blind bend of a busy rural road and safety to road users would be high. Large agricultural vehicles exiting and entering the site would impact traffic safety and cause very dangerous situations. The junction from Leys Lane onto Chapel Lane is also a known accident spot which any vehicles entering or leaving said proposal would have to negotiate.</p> <p>The proposed size of the building would effect neighbouring properties with the increase in noise, privacy, traffic and possible light pollution from security lighting. The site at present is agricultural land so the flora, fauna and wildlife would be irrevocably impacted.</p> <p>The dimensions of the proposed building seem completely inappropriate for the location and its purpose.</p>
