Objection to the proposed planning layout plan of the pumping station materials of Construction Regarding the pumping station To comply with Kirklees Policy LP24 Design - The developer should take note of the Kirklees Design Guide and build the outer skin of the pumping station in a Block construction & matching reconstituted stone This would match the new homes This will also improve the outlook for the proposed plots 37/38 & 39 My doing a small building, with louvre doors facing in a southerly direct, pump noise would be lessened Noise from a pumping station, materials nor noise levels have not been specified
