I fully support the proposals to improve and provide additional football facilities at the site. Investment in local sports facilities is important in providing opportunities for children, young people and the wider community to participate in regular physical activity and team sport. I also believe the proposals could provide important financial support for the long-term sustainability of the existing bowling club. Generating additional income and increasing the use of the site would help the bowling club meet its ongoing running, maintenance and facility costs, supporting its continued operation for many years to come. The bowling club is an established community facility, and ensuring that it has a sustainable financial future is important to maintaining opportunities for local residents to participate in the sport. I therefore support the proposals and the wider benefits they could bring to both football and bowling in the local community.
