I object to this application on the grounds that at the moment the rear FF windows are frosted for our and my neighbour's privacy and a balcony would take away our privacy by being severely overlooked which would be contravening our human rights where by we are permitted to our privacy in our own space along with de valuing our property due to the lack of privacy to be able to sit out with out being severely overlooked. the sign has only just been put on a lamp post and this is why I am responding with a strong objection to this application
