Grounds for Application

Information about the existing use(s)

Please explain why you consider the existing or last use of the land is lawful, or why you consider that any existing buildings, which it is proposed to alter or extend are lawful

It is lawful to convert a property to a C2 residential institution where planning permission is granted (or where permission is not required under planning rules). The government recognises that there is a significant national shortage of placements for vulnerable children and adults, and local authorities have a legal duty to provide suitable accommodation and care. As a result, planning policies generally encourage the delivery of well-located care facilities where they meet local needs, are appropriately managed, and do not cause unacceptable impacts on neighbouring properties. The focus of the planning system is to balance community considerations with the strong public interest in increasing the supply of care placements.

The UK government and local authorities have consistently highlighted the need for more children's homes and care facilities because:

There is a shortage of registered children's home places, leading to vulnerable children being placed far from their families and communities. Local authorities have statutory duties to accommodate children in care and provide appropriate placements. Increasing local provision helps improve children's stability, access to education, healthcare, and family contact. Additional capacity can reduce reliance on expensive emergency placements and improve outcomes.

Please list the supporting documentary evidence (such as a planning permission) which accompanies this application

Why do you consider that a Lawful Development Certificate should be granted for this proposal?

A Lawful Development Certificate should be granted because the proposed use complies with the relevant planning legislation and falls within the lawful planning framework. The proposal will provide essential residential care accommodation to meet an established and growing need for vulnerable children, supporting the statutory duties of local authorities to provide suitable placements.

The use is residential in nature and will be professionally managed, with care provided in a safe, stable, and family-style environment. The proposal does not involve any unlawful operational development or material breach of planning control. It is consistent with the purpose of planning legislation, which seeks to facilitate appropriate community infrastructure while balancing the interests of neighbouring properties and the wider public.

Granting a Lawful Development Certificate will confirm the lawful status of the proposed use, providing certainty for both the applicant and the local planning authority. The proposal accords with the relevant provisions of planning law, and there are no legal grounds on which the certificate should be withheld.
