The land in question is one of the few remaining green spaces left close to the village and should remain as such. Recently, other houses have started parking on Fenay Lane close to existing junctions of Birks Lane and Fleminghouse Lane which is both dangerous and contravenes the Highway code. Yet more cars will exacerbate this issue, not to mention the Fenay Lane/Penistone Road junction issues. The application state no watercourse, yet one exists at the lower portion of the land, exiting from under 17 Fenay Crescent, along the full length of the development. We have concern over wildlife and the disruption the development will cause. Currently on the other side of the footpath separating this development from Fenay Crescent, we have foxes, hedgehogs, owls, hawks, all manner of birds, butterflies, voles, squirrels etc, and many of these come from the field and its surrounding trees and foliage.
