i would like to object to this planning application on the following grounds:- 1. There is significant environmental impact that will not be recovered in this locality. There is a water course running on the edge with associated wildlife that will be destroyed, and associated pathways. Any Bio diversity arrangements will be satisfied outside this area and hence create more localised environmental impact. 2. This is one of the few remaining "green lungs" around this area which does not to be destroyed, further urban sprawl has to be controlled 3. I thought it was green belt so fail to understand how planning consent can be given, it is not a special circumstance, there are a number of developments nearby. 4. Fenay Lane suffers from serious speeding traffic, and more road access points will only further exacerbate the risks and dangers on Fenay Lane. 5.Fenay lane is a key route to the significantly extended King james school with many pupils walking to school up and down fenay lane as well as the increased traffic from parents dropping pupils off.
