We wish to strongly object to the proposed planning development regarding this application, We are residents of Boshaw and have grave concerns over this application on quite a few points, - Regarding the un adopted lane which is Boshaw it is always in need of repair, the amount of traffic we get is very concerning ? also the speed of which vehicle travel at. - This application also is very near to our home and will block a lot of sunlight out to our main living area. -There is well established trees to the side of this application which do not belong to the applicate, - to grant a new build here would be very out character and would have a negative in packed on the conservation and natural environment of the area. every night we watch the bates flying around this area and have done for quite a few years now. - The general service to boshaw are indeed very old , to which the main sewers runs across our fields, on numerous occasions we have had to ring Yorkshire Water to attend because of sewerage coming up out of the man holes. - The application is on green belt land, and looking at the plans it extends into the adjacent field. could this open up more planning ??.
