this again is a plan without consideration of the terraced rows our exit will become a dead lock my husband is vital minuits is vital to life its bad enough when we get cars parked on netherley . the winter ice snow we all have to re park or we dont get out of our exit. there is a walker right of way traffic will be a extra mahem children like to play also. car noise light shining into bedrooms spoiling sleep no views except roofs , this was not even supposed to be looked at untill 2032 and does not fit with housing here . the loss of faun flora gone small mammals gone bats we have seen frogs cross when it there time to do this. the exit we come out onto netherley and out on mount rd can be tricky enough. again to ask that this mad idea idea is objected thank you j resident for 32 years on this small rural area .
