To date, there have been no official notification letters sent out to the residents of Birch Grove, Woodlands Road and Merlin Court to inform them of the proposed plans and to give them the opportunity to comment. I understand, by law, these should be sent out well before the planning deadline which is 26 October 2026.

Many of the residents of the area are elderly and are not computer literate and rely on information being sent by letter.

The only official notification of the development is a solitary sign, which was tied to a lamp post near the property.
This has not given local people the chance to make valid comments about the proposed plans.

Could these be sent to all affected residents as soon as possible and the deadline for the receipt of public comments be changed to allow them to have time to make their comments accordingly to follow the set guidelines.
