I am writing in full support of planning application 2026/92173 for Masjid Iman (Waverley House Mosque). The mosque provides indispensable services to the local Huddersfield community, including educational programs, youth activities, and support for families and the elderly. The facility contributes positively to local wellbeing and social cohesion while operating responsibly within the local neighborhood. My family and I have personally benefited from the informative, regular lectures arranged at the mosque, which are open and free for anyone to attend. The application aligns well with local planning policies regarding community provision and building usage, and I hope Kirklees Council will approve the application.
