I strongly support this planning application for a change of use to a place of worship.

As a Kurdish woman, having a dedicated place where women from our community can gather weekly is very important. These gatherings allow us to pray, speak our own language, support one another and maintain our cultural and religious traditions.

It would also give us a place to celebrate important occasions such as Eid together as a community. Having a welcoming space where we can meet regularly, build friendships and support each other has a positive impact on our mental health and overall wellbeing.

This is more than a place of worship; it is a place of friendship, support, celebration and community. I fully support this application.
