I strongly support this planning application to change the existing building into a community centre.

The proposal would provide a valuable facility for residents of all ages and backgrounds, promoting social inclusion, community connections and a greater sense of belonging. It could support children, young people and families through educational, cultural and community activities, while also helping reduce social isolation among older residents.

I welcome the positive use of an existing building to provide much-needed community facilities. Subject to appropriate management and consideration of neighbouring properties, the centre could make a lasting contribution to the local area.

For these reasons, I respectfully encourage Kirklees Council to grant planning permission.
