Our road is very narrow and over the years has got a lot more traffic which in my opinion is now made it more dangerous. at the top of the road which has a very sharp bend.we see and hear cars coming up and down and are surprised someone has not been killed or seriously injured. If this application is allowed to go through it will be a mistake that could cause the death of someone. The only access would be on a small already busy lane. Also at the bottom of the road has parked cars. there is a playing field which children and football teams use. This also makes it very difficult as when there is a football match we have a lot more cars parked about.
