This is a terrible idea for the safety of the residents and vehicles on this very narrow lane. Bin trucks have had to change the delivery days for safer access to the bins already. Its a country lane surrounded by animals, farm land and people walking there dogs. The noise and pollution from all the delivery trucks wont be good for the families living on the street, which is the direct way to accessing the proposed site. The smell of the machines on site would also harm and disturb the birds around the local area. Online previously for years on the field below housing developments have been rejected with the same complaints and values.
