| <p>This development would impact heavily on many accounts, the land is directly behind my property and would effect my household from an environmental perspective ie houses directly behind possibly effecting privacy,lighting,noise and.also the wildlife in the area. Also the road is already narrow and the properties would be just beyond a sharp bend and would dramatically increase risks of road traffic accidents. The disruption this development would cause is massive and.we and our neighbours strongly object to this development as we have for previous plans.</p> |     |
