Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in [Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 \(as amended\)](#)) would apply?

- ☐ Yes
☒ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in [The Environment Act 2021](#): "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:
Development site area of 0.2 hectares or below

Are there any priority habitats on or within 500m of your site?:
No

Can you evidence that you carried out a site assessment if the local authority disputes the presence of priority habitats?:
Yes

Please justify the reason why biodiversity net gain does not apply:
Brooks Ecological have carried out a Preliminary Ecological Appraisal into the site, which is submitted (ER-8982-02) and confirms no priority habitat on site or within influencing distance.

Please read the help text for further information why developments may be exempt or not in scope.

The conclusion of the pre-application advice is: "An application for two padel courts would be acceptable in principle under Policies LP50 & LP61 of the Kirklees Local Plan, subject to details relating to noise, lighting, parking and ecology. It is considered that a sensitive strategy in terms of noise and lighting could be achieved in this location. Details of parking would be required to confirm if the existing provisions within the site are suitable."

With respect to the Authority, is the applicant and/or agent one of the following:

- (a) a member of staff

It is an important principle of decision-making that the process is open and transparent.
