I object to the padel courts being built for the following reasons:

Noise:

I am years old and a resident in a property overlooking the cricket club.

There has already been a large increase in noise from the clubhouse and grounds as more and more events are taking place. Which has meant I cannot have windows open even during the hot weather or sit quietly in my garden.

The padel courts which are proposed will mean for sure that no windows could be open between the 6 am to 11pm hours and unpleasant to sit in the garden to relax.

Myself and wife have complained about the current noise levels from noisy drinkers, music, generators, camping, fireworks, cars all of which happen outside our home every week now.

The noise is impacting our lives and causing me to have anxiety attacks, to the point that I don't want to be at home and struggle sleeping. The padel courts will only add to this anxiety and sleep.

Wildlife:

The number of birds has noticeable decreased over past few years as the events etc have increased as has noise levels.

The lighting would also greatly affect the wildlife with their routines, feeding etc.

The padel courts will impact the wildlife hugely.

Light pollution:

Having floodlights glaring outside our home will mean we shall have to have curtains closed longer as our tv is near the window.

Parking:

Parking is already a huge issue in Scholes.

When events are on the cars overflow onto the actual field outside my home, doors banging, engines running.

They also park on Foldings road causing health and safety issues as ambulances etc struggle to navigate through parked cars on kerbs.

I have been unable to get parked outside my home. I am and it is hard enough getting parked with just residents cars.
