User comments

Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	Yes

I strongly object to the building of a 4 bedroom property at the bottom of Albany drive
1. Albany drive is a narrow road where the majority of residents have to park on the road
2 said property states Parking for 3 vehicles all which will have to reverse out onto an all ready crowed street
3 pavement will be required outside said property meaning less room on road so road would need making wider
4 who give permission for said tress to be felled at a time when birds nesting what happened to protecting the wildlife including the bats & this occurred before said planning application when the trees have been there
over 50 years I'm sure they would have been protected they should be fined tree surgeon & Craig miller
5 The proposal for the drainage will not work were is soak away going for rainwater
6 Re the entering from Albany drive to Albany road is difficult now with the hospice parking on double yellow lines if said property goes ahead I can see a accident in the near future with a fence built & a bus stop there too
7 There would have already been a dwelling there if George Haigh could have built the road straight but had to build on a angle so he could get more properties on the right hand side up Albany drive something had to give so it was left as a green area
8 All car access for property on left hand side of Albany drive have pedestrian access only with a single gate their drives are at front of property of Albany road
9 Highways Many people walk their children to school & walk straight across Albany drive not realizing it's a junction kids on bikes people with headphones we are just not going to be able to see them with said proposal when driving down street
