DEVELOPMENT MANAGEMENT

Town and Country Planning Act 1990 (as amended) – SECTION 70

DELEGATED DECISION TO DETERMINE PLANNING APPLICATIONS

Reference No:	**2026/62/92254/E**
Site Address:	7, Park View, Thornhill Lees, Dewsbury, WF12 9DT
Description:	Erection of dormer window to front
Recommending Officer:	Jennifer Booth

DECISION – Full Conditional Permission

I hereby authorise the approval of this application for the reasons set out in the officer's report and recommendation annexed below in respect of the above matter.

Kirsty Nicholls

AUTHORISED OFFICER

Date: 08-Oct-2026

OFFICER REPORT

Site Description

7 Park View is a stone built mid terraced property with an open area of hardstanding to the front and a yard area to the rear. The property has a conservatory to the rear.

The surrounding area is residential with properties of a similar age and original style although these have a number of extensions and alterations.

Description of Proposal

The application is seeking planning permission to erect a dormer to the front of the property.

The dormer would have a width of 3.1m and a height of 2m with a pitched roof form. The dormer cheeks would be clad with vertically hung tiles.

The walls would be a combination of brick and render with tiles for the roof covering.

Relevant Planning History

Representations

The application was advertised by site notice, which expired on 21/09/2026

As a result of the above publicity, no representations have been received.

Consultation Responses

None

Policy

Section 38(6) of the Planning and Compulsory Purchase Act 2004 requires that planning applications are determined in accordance with the Development Plan unless material considerations indicate otherwise. The statutory Development Plan for Kirklees is the Local Plan (adopted 27th February 2019).

The site is UNALLOCATED on the Kirklees Local Plan Proposals Map

On 12th November 2019, the Council adopted a target for achieving 'net zero' carbon emissions by 2038, with an accompanying carbon budget set by the Tyndall Centre for Climate Change Research. National Planning Policy includes a requirement to promote carbon reduction and enhance resilience to

climate change through the planning system and these principles have been incorporated into the formulation of Local Plan policies. The Local Plan predates the declaration of a climate emergency and the net zero carbon target; however, it includes a series of policies which are used to assess the suitability of planning applications in the context of climate change. When determining planning applications, the Council will use the relevant Local Plan policies and guidance documents to embed the climate change agenda.

Kirklees Local Plan Policies

- **LP 1** – Achieving sustainable development
- **LP 2** – Place shaping
- **LP 22** – Parking
- **LP 24** - Design
- **LP 30** – Biodiversity

Kirklees Council adopted supplementary planning guidance on house extensions on 29th June 2021 which now carries full weight in decision making. This guidance indicates how the Council will usually interpret its policies regarding such built development, although the general thrust of the advice is aligned with both the Kirklees Local Plan (KLP) and the National Planning Policy Framework (NPPF), requiring development to be considerate in terms of the character of the host property and the wider street scene. As such, it is anticipated that this SPD will assist with ensuring enhanced consistency in both approach and outcomes relating to house extensions.

National Policies and Guidance:

National planning policy and guidance is set out in National Policy Statements, primarily the National Planning Policy Framework (NPPF) published August 2026, the Planning Practice Guidance Suite (PPGS) first launched 6th March 2014 together with Circulars, Ministerial Statements and associated technical guidance.

The NPPF constitutes guidance for local planning authorities and is a material consideration in determining applications.

- Chapter 4 – Achieving sustainable development (S3: Presumption in favour of sustainable development)
- Chapter 5 – Meeting the challenge of climate change (CC2: mitigation of climate change & CC3: Adaption to climate change)
- Chapter 14 – Achieving well-designed places (DP3: Key principles for well-designed places & DP4: The design process)
- Chapter 17 – Pollution, public protection and security (P2: Ground conditions & P3: Living conditions and pollution)
- Chapter 19 – Conserving and enhancing the natural environment (N2: Improving the natural environment, N6: Areas of particular importance for biodiversity and geodiversity)

Assessment

Principle of development:

The site is without notation on the Kirklees Local Plan (KLP). Policy LP1 of the KLP states that when considering development proposals, the Council will take a positive approach that reflects the presumption in favour of sustainable development contained in the NPPF. In terms of extending and making alterations to a property, Policy LP24 of the KLP is relevant, in conjunction with the House Extensions & Alterations SPD and Chapter 12 of the NPPF, regarding design. In this case, the principle of development is considered acceptable, and the proposal shall now be assessed against all other material planning considerations, including visual and residential amenity, as well as highway safety.

The plans do show a rear dormer. However, this is annotated to make it clear that this element is being constructed under permitted development rights. It does not form any part of this application under consideration.

Impact on visual amenity:

Key Design Principle 1 of the House Extensions & Alterations SPD does state that extensions and alterations to residential properties should be in keeping with the appearance, scale, design and local character of the area and the street scene. Furthermore, Key Design Principle 2 of the House Extensions & Alterations SPD goes onto state that extensions should not dominate or be larger than the original house and should be in keeping with the existing building in terms of scale, materials and details.

Paragraph 5.26 of the House Extensions & Alterations SPD requires consideration of the wider area and surrounding buildings when considering whether a front dormer is appropriate. Dormers should be well-designed and small in scale.

The proposed front dormer is considered acceptable in visual amenity terms. Positioned centrally within the roof slope, it allows the original form and proportions of the dwelling to remain clearly legible. Whilst the dormer exceeds half the width of the principal elevation, it is clearly read as a subordinate addition by virtue of its position within the roof, its set down from the ridge and set in from the roof edges. The pitched roof design reflects the architectural character of the host property and maintains an appropriate relationship with the existing roof form. Furthermore, the use of vertically hung tiles provides a sympathetic finish that complements the dwelling and helps the dormer to blend into the roofscape, ensuring it does not appear as an incongruous or dominant addition. As such, the proposal would preserve the character and appearance of the property and the wider street scene.

Having taken the above into account, the proposals would not cause any significant harm to the visual amenity of either the host dwelling or the wider street scene, complying with Policy LP24 of the Kirklees Local Plan (a) in

terms of the form, scale and layout and (c) as the extension would form a subservient addition to the property in keeping with the existing building, KDP 1 & 2 of the House Extensions & Alterations SPD and the aims of chapter 14 of the National Planning Policy Framework.

Impact on residential amenity:

Consideration in relation to the impact on the residential amenity of neighbouring occupants shall now be set out, taking into account policy LP24 c), which sets out that proposals should promote good design by, amongst other things, extensions minimising impact on residential amenity of future and neighbouring occupiers. The House Extensions & Alterations SPD goes into further detail with respect to Key Design Principle 3 on privacy, Key Design Principle 5 on overshadowing/loss of light and Key Design Principle 6 on preventing overbearing impact.

The proposed development is considered acceptable in terms of residential amenity. As the works are contained largely within the existing roof space, they would not result in any significant increase in the building's massing and therefore would not give rise to harmful overshadowing or an overbearing impact on neighbouring occupiers. In addition, whilst the dormer would introduce a window within the front roof slope, the separation distances to properties opposite are sufficient to prevent any unacceptable overlooking or loss of privacy. Accordingly, the proposal would not have a detrimental impact on the living conditions of surrounding residents.

Having considered the above factors, the proposals are not considered to result in any adverse impact upon the residential amenity of any surrounding neighbouring occupants, complying with Policy LP24 of the Kirklees Local Plan (b) in terms of the amenities of neighbouring properties, Key Design Principles 3, 5, 6 & 7 of the House Extensions & Alterations SPD and Chapter 14 of the National Planning Policy Framework.

Impact on highway safety:

The proposals will result in some intensification of the domestic use. The property has parking for two vehicles to the front which is considered to represent a sufficient provision. Bin storage for the dwelling would not be moved as part of the proposals. As such the scheme would not represent any additional harm in terms of highway safety and as such complies with Policy LP22 of the Kirklees Local Plan along with Key Design Principles 15 & 16 of the House Extensions & Alterations SPD.

Other matters:

Biodiversity

After a visual assessment of the building by the officer, it appears that the building is in good order, well-sealed and unlikely to have any significant bat roost potential. Even so, a cautionary note should be added that if bats are

found during the development, then work must cease immediately and the advice of a licensed bat worker sought.

Carbon Budget

The proposal is a small scale domestic development to an existing dwelling. As such, no special measures were required in terms of the planning application with regards to carbon emissions. However, there are controls in terms of Building Regulations which will need to be adhered to as part of the construction process which will require compliance with national standards.

There are no other matters for consideration.

Negotiations:

None

Proposed conditions

Along with the standard timescale condition, which is a requirement of Section 91 of the Town and Country Planning Act 1990, it is considered appropriate to add the following conditions.

Accordance with the approved plans to ensure the development is carried out in line with the officer's assessment.

Conclusion:

This application to erect a dormer to the front of 7 Park View has been assessed against relevant policies in the development plan as listed in the policy section of the report, the House Extensions & Alterations SPD, the National Planning Policy Framework and other material considerations. Given the acceptable design and lack of harm in terms of visual and residential amenity, the proposals are considered to be acceptable.

The NPPF has introduced a presumption in favour of sustainable development. The policies set out in the NPPF taken as a whole constitute the Government's view of what sustainable development means in practice.

As set out above, this application has been assessed against relevant policies in the development plan and other material considerations. It is considered that the development would constitute sustainable development and is therefore recommended for approval.

Recommendation **Approve**

Decision Authorisation - Delegated Powers
Application Number: 2026/92254
Officer Recommendation: Approve
Conditions and Reasons

1. The development hereby permitted shall be begun within three years of the date of this permission.
Reason: Pursuant to the requirements of Section 91 of the Town and Country Planning Act 1990.

2. The development hereby permitted shall be carried out in complete accordance with the plans and specifications schedule listed in this decision notice, except as may be specified in the conditions attached to this permission, which shall in all cases take precedence.
Reason: For the avoidance of doubt as to what is being permitted and so as to ensure the satisfactory appearance of the development on completion, and to accord with Policy LP24 of the Kirklees Local Plan, Key Design Principles of the House Extensions & Alterations SPD and the aims of the National Planning Policy Framework.

NOTE: Due to its location, a bat roost may be present on site. Bats are a European protected species under regulation 41 of the Conservation of Habitats and Species Regulations 2010. It is an offence for anyone intentionally to kill, injure or handle a bat, disturb a roosting bat, or sell or offer a bat for sale without a licence. It is also an offence to damage, destroy or obstruct access to any place used by bats for shelter, whether they are present or not.

If bats are discovered on site development shall cease and the applicant is advised to contact Natural England for advice.

NOTE: The granting of planning permission does not override any private legal rights or consents that may be required. It is the responsibility of the applicant / developer to ensure that all appropriate consents are in place prior to any development commencing; during the period of construction existing access for neighbouring properties is maintained; and no damage is caused to the access driveway or surrounding properties.

NOTE: To minimise noise disturbance at nearby premises it is generally recommended that activities relating to the erection, construction, alteration, repair or maintenance of buildings, structures or roads shall not take place outside the hours of:

07.30 and 18.30 hours, Mondays to Fridays
08.00 and 13.00hours, Saturdays

With no working Sundays or Public Holidays

In some cases, different site specific hours of operation may be appropriate.

Under the Control of Pollution Act 1974, Section 60 Kirklees Environment and Transportation Services can control noise from construction sites by serving a notice. This notice can specify the hours during which the works may be carried out.
Plans and specifications schedule: -

Plan Type	Reference	Web ID	Date Received
Location Plan	-	1153811	14/08/2026
Existing Elevations and Floor Plans	02	1153812	14/08/2026
Proposed Elevations and Floor Plans	03	1153813	14/08/2026
Climate Change Statement	-	1153809	14/08/2026

Pursuant to article 35 (2) of the Town and Country Planning (Development Management Procedure) Order 2015 and guidance in the National Planning Policy Framework, the Local Planning Authority have, where possible, made a pre-application advice service available, complied with the Kirklees Development Management Charter 2024 and otherwise actively engaged with the applicant in dealing with the application.

As the submitted plans were considered to be acceptable, no changes were sought.

Report Dated 30/09/2026
