The morals of this was clear when orionally applied for mosque years ago. This was not granted then so why would it be now. Especially when for the last couple of years it has been used outside the actual useage rights that was allowed to them. Basically if ask anyone nearby that lives they will say the same- its already being used as a mosque and has been for a few years. Councillors police and planning have been notified but acknowledge it is . This needs shutting down not allowing to progress into what is being put forward due to the fact that current permissions are not adhered to. There is not adequate parking to accommodate the useage nearby. Even at the roadside at times quite a few of the cars look abandoned and are parked sticking out into the road that affects traffic flow which it never has until this was going on. It has made it so residents cannot even park near their own house as they take up all the spaces. Then if you have a car parked up they reverse into the property owners car even though it was seen it is just denied. The roadsitself is a free for all when they leave and makes more congested than usual. Parking on the pavements and forcing pedestians to walk in the road , especially people with pushchairs , mobility scooters. Doublw parking on the path outside dalton food stores doesnt help. They do not currently and will not car share opposed to what is being said as it has always been 1 person in a car so that wont change. If its 15 children per classroom as well with there being 3 classrooms that will be at least 30 cars . Where will they stop the cars when drop off or stay. There isnt the space needed for this extra traffic and parking. Also the extra noise of the people hanging round after and before. Amount of noise from car doors closing etc ... If the current permissions are being abused now , what will be next? The area itself doesnt need it , although the building itself doesnt look too bad at the moment the useage does not fit in with the area. At least when it was a pub people didnt go in cars and interfere with residents enjoyment of their own property , that they paid for , pay council tax for and for what?
