My daughter and son attended the education centre and benefited greatly from the tutoring they received there. I saw a real improvement in their behaviour and character, and I have always found the centre to be a very professionally run place. I welcome the proposals for the change of use to a place of worship. This additional use will complement the educational facilities that have been provided for more than a decade and will be a great benefit to myself and my children. We live just 5 minutes walk from the institute and will not require parking. I believe the Council should welcome an organisation that is actively proposing measures to manage its impact on the surrounding neighbourhood. The proposed attendance limits, traffic management arrangements and parking supervision demonstrate a willingness to operate responsibly. Rather than refusing a valuable community facility because of concerns that can potentially be managed, I would encourage the Council to consider appropriate planning conditions to ensure the centre operates within agreed limits. This application offers an opportunity to provide a local facility that is needed while protecting the interests of neighbouring residents. I believe both objectives can be achieved and respectfully request that permission is granted.
