I support planning application 2026/92385 and particularly welcome the proposed arrangements for managing Friday prayers. The proposal to hold two separate sessions with attendance limited to around 40 people per session appears to be a sensible way of controlling the number of visitors arriving at any one time. Combined with traffic marshals and a formal management plan, this provides a structured approach to managing the busiest period of the week. I believe the Planning Department should assess these specific arrangements rather than assume that the facility will operate in the same way as a much larger mosque. A proportionate assessment of the proposed scale and operating arrangements is essential. I would welcome approval subject to appropriate conditions. For myself and my family this place is a short walk less than 5 min away so really ideal and I'm sure we would benefit from it by avoiding car journeys across town.
