To keep the area around the building clear of traffic congestion and clear of parking in the residential streets The area is well served by schools who walk by the building and the proposed times for arrival some times twice a day as well as the noise will not be welcomed The bus routes to Dalton and Rawthorpe will be stopping in front of the area of the building making traffic even more difficult There are supposed to be Traffic Monitors to keep the area clear yet there are none. If young children attend after school they will likely be taken by car and again picked up later after lessons as well as adults attending for their prayers sometimes twice a day, The building was only ever allowed to be used for education and not for religious purposes as was the original application which was refused due to the large number of proposed people attending The original approval was for adult education lessons only and no adult religious as in a Mosque Hill Top Road at the side of the building is a narrow road and any extra parking at the side would stop large vehicles Emergency etc
