This building has already been used for outside its actual previous granted permissions. It is being used at times on a friday when children are at school so obviously not for kids. Many taxis and cars parked up some of which the parking is ridiculous and only men go in- one man per car usually. Thurday evening is the same . There are a few signs near bus stops that says no parking at any time but these are ignored and still park there.there isnt the space to allow it to run for the proposed plans. Its proved by it being used anyway like proposed for the last few years and impacts local residents parking, noise . Road side parking is fair game to whoever parks there first but when it is due to the people using the building outside what is allowed , then have a nerve to put it in to planning for more use. How can this go through when the people involved dont respect boundaries and previous planning requests that have been denied. If anything it should be closed down with the current rights cancelled due to the prolonged unauthorised useage.
