I think this is a fantastic idea and would bring significant benefits to the local community. The centre would provide a valuable space for worship, religious education and activities for children, while helping to bring people of all ages together. It would support local families, encourage community spirit and provide an opportunity for people to learn, connect and support one another. Having a facility like this locally would be a real asset to the area, benefiting residents and helping to build a stronger, more connected community. I fully support this planning application and strongly encourage Kirklees Council to grant planning permission. I believe the proposed development would make a positive contribution to the local area and provide lasting benefits for the community, while making good use of an existing building for an important community purpose.
