

This architectural drawing shows a section of a building facade. It features a large, rectangular window with a thick, dark frame. A dashed horizontal line is drawn across the window, indicating a level or a break. To the right of the window, there is a small, square, textured element, possibly a door or a decorative panel. Below the window, a vertical, textured element, likely a wall or a column, is shown. The drawing is a black and white line drawing with a textured pattern for the vertical element.

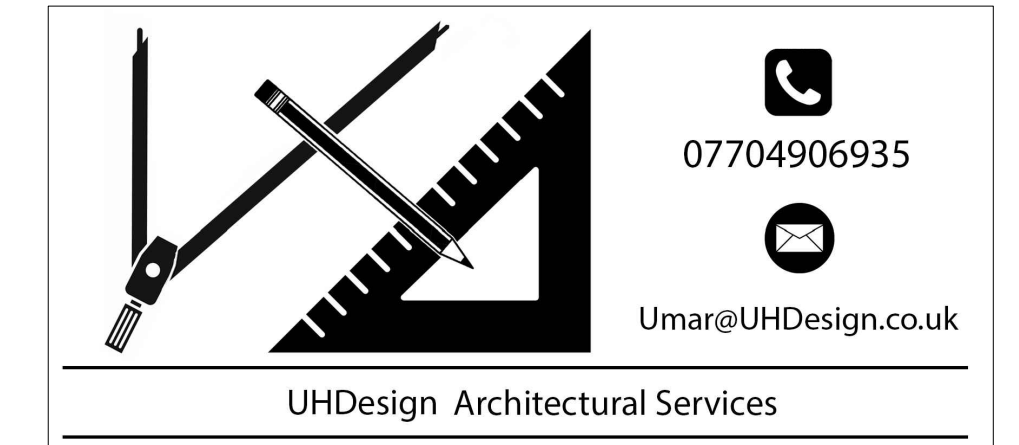

Flat 1 - 71.4 Sq.m
 2 Bedroom 4 People
 70 Sq.m

Flat - 2 50.3 Sq.m
 NDSS - 1 Bedroom 2 People
 50 Sq.m

The diagram illustrates a residential site layout. At the top, a building is shown with a gabled roof and two dormer windows. Below the building, a large rectangular area is labeled "Bin Store For Ground floor". To the right of this area, a smaller rectangular area is labeled "Bin Store for Flats". In the bottom right corner, a large rectangular area is labeled "Bicycle Stand x6". A dashed line indicates a parking area with two car symbols. A red line outlines the site boundary. A legend in the top left corner shows a car symbol and a box labeled "Bin Collection point".

A circular diagram representing a magnetic field. It features a central point with four radial lines extending to the outer edge, labeled 'N' (North) at the top, 'S' (South) at the bottom, 'E' (East) on the right, and 'W' (West) on the left. Numerous black lines, representing magnetic field lines (B), are drawn as concentric arcs centered on the circle, with arrows indicating a clockwise direction. A specific path of these field lines is highlighted in red and labeled with the symbol Φ (magnetic flux).

Written dimensions on these drawings shall take precedence over scaled dimensions. Contractors shall verify and be responsible for all dimensions and conditions on the project and UHD Architectural Services must be notified of any variations from the dimensions and conditions shown by these drawings prior to commencement of any work. All contractors are deemed to have made themselves aware of site conditions prior to entering into any contract.
