<p>The application states that the development cannot be seen from a public footpath or bridleway. There are 2 public footpaths (one of which the applicants have blocked by erecting a building on it, without planning permission) that the development can be seen from. There is also a bridleway running through the farmyard. The development will undoubtedly severely increase the noise, disturbance to other residents, and odour. There will be an increase in traffic and a reduction in highway safety along a single track bridleway used by horseriders, cyclists and pedestrians, because of the increase large stock wagons.</p>
