The proposed building of a detached dwelling at the junction of birkhead street & Cawley lane will add to the existing problems for drivers exiting birkhead street on to cawley lane obstructing their view ,perticularly during school term times when traffic is horrendous ,over the years submissions for planning a bungalow by Mr O'rourkeon ,who owned the land have been refused . The reasons for refusal for planning on this site have not changed. Now planning is being submitted for a two story dwelling which will be much bigger than a bungalow and would also obstruct the views of the properties behind it .From the plans it can be seen that the area for parking is very small, with only space for one vehicle.should the occupants increase the number of vehicles this,again,will add to existing parking and traffic problems at this junction,particularly as vehicles are parked fully on pavements these days
