

## **Appendix A – Climate Change Statement**

### **Climate Change Statement for Planning Applications**

#### **Part 1: Applicant details**

|                            |                                                                                                                                                                                                       |
|----------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Name of applicant/agent    | Ruth King - Mirfield Designs                                                                                                                                                                          |
| Site Address               | 695 Leeds Road<br>Huddersfield<br>HD2 1YY                                                                                                                                                             |
| Description of Development | External alterations to single storey and two storey side and rear wrap around extension, canopy roof & porch to the front, out building to the rear and render to the whole property (Retrospective) |

#### **Part 2: Climate Change Mitigation measures**

|                                                                                                                                                                                                                         |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Please respond to the following questions considering the measures set out in the Climate Change Guidance note:                                                                                                         |
| Q1: What measures have been/will be taken to reduce the energy demand associated with your proposed development beyond the minimum required in Building Regulations? (See section 2)                                    |
| The development is extensions, out building so does not apply                                                                                                                                                           |
| Q2: What measures have been/will be taken to limit the carbon consumed through the implementation and construction processes, e.g. by reusing existing on-site materials or sourcing materials locally? (See section 3) |
| Sourcing materials locally                                                                                                                                                                                              |
| Q3: What measures have been/will be taken to utilise renewable or low carbon energy sources? (See section 4)                                                                                                            |

|                                                                                                                                                                                                                    |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| The proposal is extensions and out building so does not apply                                                                                                                                                      |
| Q4: What measures have been/will be taken to ensure the building design and layout has been optimised to energy efficiency beyond the minimum requirements in Part L of the Building Regulations ? (See section 5) |
| The proposal is extension and out building so does not apply                                                                                                                                                       |
| Q5: What measures have been/will be taken to reduce potential impacts of flooding associated with your proposed development? (See section 6)                                                                       |
| Flood risk report added                                                                                                                                                                                            |
| Q6: What measures have been/will be taken to reduce water stress associated with your proposed development? (e.g. Water retention and minimisation measures) (See sections 7 and 8)                                |
| the proposal is extensions and outbuilding so does not apply                                                                                                                                                       |
| Q7: What measures have been/will be taken to provide biodiversity net gains? (See section 8)                                                                                                                       |
| The proposal is extensions and outbuilding so does not apply                                                                                                                                                       |
| Q8: What measures have been/will be taken to reduce air pollution associated with your proposed development? (See section 9)                                                                                       |
| The proposal is extensions and outbuilding so does not apply                                                                                                                                                       |
