I am writing to formally object to planning application 2026/92702 for the proposed 22.5m monopole and associated equipment compound at Lindley Bowling Club.
As a resident living next door to the application site, I will be immediately and severely impacted by this development. I object on the following material considerations:

Severe Loss of Residential Amenity: Due to my property's immediate proximity, a 22.5-meter industrial structure will overwhelmingly dominate the skyline directly outside my home. It will result in an unacceptable, overbearing visual intrusion into my primary living spaces and private garden area.

Siting and Excessive Scale: A monopole of this immense height is completely inappropriate next to low rise residential boundaries. The industrial design, combined with multiple antennas, dishes and a 1.8-meter boundary fence, will drastically industrialise the immediate boundary of homes and the adjacent community green space. The pole and equipment compound surrounded by a 1.8-meter fence would be out of character in the immediate surrounding area of Lindley Bowling Club, a highly valued community asset that provides essential recreational, social and open space for local residents. The site is adjacent to a conservation area.

Visual Character: The structure is entirely out of character with the surrounding suburban streetscape. It will stand significantly higher than the domestic rooflines and mature trees, creating a permanent visual blight for those who live closest to it.

Inadequate Site Selection: The applicant has failed to prove that less harmful alternative sites – such as commercial areas or rooftop locations away from immediate residential boundaries – were genuinely exhausted. Somewhere more suitable and less intrusive, there are already masts on Lindley Liberal Club.

Living next door, the daily impact on my immediate environment will be profound. For these reasons I strongly urge Kirklees Council to protect residential amenity and refuse prior approval for this application. Please keep me informed of any updates or when this matter will be brought before the planning committee.
