I live in the area and we are fit to bursting: the infrastructure around school and doctors is horrendous. The roads around here for such a small area are constantly backed up. We have had several housing estates in the past few years around east Bierley and Birkenshaw and the area just can't cope with anymore. I would like to move out of the area because of the reasons stated and I have lived here 20 years. I really don't want to but feel like the lovely area I once lived in , is becoming an area where trying to get in and out of it is a logistical nightmare. Crime is on the increase and nothing gets looked after by the council. We don't have big enough schools , pleased mine are in the system because I wouldn't want to have to try and get them in one now, especially east Bierley it's such a small school. What was once a lovely village is becoming less and less because of the constant building, roadworks and noise pollution. Why are we continuing to build homes in an area that is fit to burst: I use to ride horses and I wouldn't want to do it now it's just a constant stream of traffic. I really can't believe this is even been considered after The amount of houses that have been built in the Birkenshaw and east Bierley area. It's overwhelming.this really isn't fair on The residents who are already in the area. We have had 160 plus homes built recently in such a small area and I just think this is getting beyond a joke. The traffic is exhausting and yet let's squeeze another 65 in.
