5. What Are You Applying For?

Are you seeking consent for works to tree(s) subject to a TPO? ☒ Yes ☐ No

Are you wishing to carry out works to tree(s) in a conservation area? ☒ Yes ☐ No

6. Tree Preservation Order Details

If you know which TPO protects the tree(s), enter its title or number below.

TPO 12/75 t9

7. Identification Of Tree(s) And Description Of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out. Continue on a separate sheet if necessary. You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Where trees are protected by a TPO, please number them as shown in the First Schedule to the TPO where this is available. Use the same numbers on your sketch plan (see guidance notes).

Please provide the following information below : tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.

E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

T1 - Birch - reduce lateral side growth to clear vehicles and retain a natural shape/form. The tree has been subject to multiple vehicular strikes on the road side of the crown causing damage to both vehicle and tree. We wish to reduce these branches, to reduce the risk of this continuing to happen, and reduce the remaining sides of the tree to prevent leaving the tree an unpleasant and unnatural shape. Pruning would be carried out to BS3998. I have attached a picture with an indication of the pruning line.

7. Identification Of Tree(s) And Description Of Works continued ...
