Our ref: 151667-TSA-00-TRU-REP-W-LP-000082

Dear Liz

Submission of details pursuant to discharge of Planning Condition 9 relating to the deemed planning permission for the Huddersfield to Westtown (Dewsbury) Improvements Transport and Works Act Order (Stage 4 of development)

On behalf of Network Rail, we refer to the above development, for which Planning Direction was received from the Department for Transport reference TWA/21/APP/03, dated 13 October 2022 subject to compliance with conditions 1-20 attached to the Consent.

The discharge of conditions in relation to the Scheme follows a staged approach (8 stages) based on the planned works at any given time. Various conditions will be applicable depending on the stage of work. These stages are detailed in the approved Stages of Development document (151667-TSA-00-TRU-REP-W-EN-001189).

This submission relates to Stage 4 of the Development. Stage 4 comprises the construction works in the Huddersfield Station and Huddersfield Viaduct area of the Scheme.

The submission relates to the proposals for the means of enclosure.

Condition 9 states:

a) No later than 6 months after the commencement of the individual stage of the development to which it relates details of all new permanent means of enclosure for the railway in that stage must be submitted to and approved in writing by the local planning authority.

b) The approved means of enclosure must be erected in full in accordance with the approved details and retained thereafter unless otherwise agreed in writing with the local planning authority.

Reason: *In the interest of public safety and visual amenity in accordance with policy LP24 (e) of the Kirklees Local Plan.*

It is considered that document Condition 9: Means of Enclosure – Stage 4 document reference 151667-TSA-00-TRU-REP-W-EN-000078, dated October 2026 submitted alongside this letter provides sufficient information to satisfy the relevant requirements of the Condition.

Yours sincerely,

Pam Butler
