Job No. 3738	Rev.
Comments: The survey has been orientated to the Ordnance Survey (OS) National Grid (OSGB36) via a GPS and the OS active network. No coordinates have been applied to the survey therefore the OS scale factor is arbitrary and not true OS which has a scale factor applied. Trees are positioned accurately unless stated, Boles & Canopies are indicative unless otherwise stated where possible. Some services may have been omitted due to dense vegetation, parked vehicles or site access issues. All critical dimensions to be verified on site before design - construction takes place. All dimensions shown are in meters. No liability will be taken for this drawing if passed onto a third party without written permission for Fosse Surveying.
