Subject: Fw: Verification at Land Adj. 480 Halifax Road for 600mm topsoil

Dear Alex,

I have reviewed the information provided and I am satisfied that there is no need for further confirmation testing as this is a small portion of a development. The test company is reliable and works on many sites in the area. Should Kirklees MBC require further testing confirmation feel free to pass my details.

Thanks and Kind Regards

GeoEnginSeer Ltd.
