Appendix A – Climate Change Statement

Climate Change Statement for Planning Applications

Part 1: Applicant details

Name of applicant/agent	Applicant : Mr K Aziz
Site Address	13 Leeds Road, WF14 0BY
Description of Development	Single Storey rear extension

Part 2: Climate Change Mitigation measures

Please respond to the following questions considering the measures set out in the Climate Change Guidance note:
Q1: What measures have been/will be taken to reduce the energy demand associated with your proposed development beyond the minimum required in Building Regulations? (See section 2)
Cavity Walls with Full filled cavity insulation. White goods to be energy efficient
Q2: What measures have been/will be taken to limit the carbon consumed through the implementation and construction processes, e.g. by reusing existing on-site materials or sourcing materials locally? (See section 3)
Materials to be recycled where reasonably can be.
Q3: What measures have been/will be taken to utilise renewable or low carbon energy sources? (See section 4)

All electrics and plumbing to comply with Building Regs. Improved insulation in walls
Q4: What measures have been/will be taken to ensure the building design and layout has been optimised to energy efficiency beyond the minimum requirements in Part L of the Building Regulations ? (See section 5)
Roof lights to maximise natural light High efficiency windows and roof lights to be installed.
Q5: What measures have been/will be taken to reduce potential impacts of flooding associated with your proposed development? (See section 6)
No Flooding
Q6: What measures have been/will be taken to reduce water stress associated with your proposed development? (e.g. Water retention and minimisation measures) (See sections 7 and 8)
No changes
Q7: What measures have been/will be taken to provide biodiversity net gains? (See section 8)
No change
Q8: What measures have been/will be taken to reduce air pollution associated with your proposed development? (See section 9)
Prefabricated methods of construction to reduce cutting and labour on site.
