4 Bike Eco Cycle Shelter

Product Datasheet | USP/ES4/2HR | 17 October 2026

A practical, open-fronted cycle shelter providing weather-sheltered storage for up to four adult bicycles. Clear UV2 PETG rear panels are included as standard, with optional side panels and coloured Skybond ACM or galvanised steel alternatives offering choices in visibility, privacy and appearance. An optional cycle rack with two square stands and a central locking bar provides convenient locking points for D-locks and chains, creating an organised cycle parking area suitable for residential, commercial, workplace and leisure environments.

4-Bike Eco Cycle Shelter shown with clear rear UV2 PETG panels, optional side panels and optional cycle rack

Hot-Dip Galvanised After Fabrication

The mild steel used in Urbanfab products is hot-dip galvanised after fabrication to ISO 1461:2022. Total immersion in molten zinc allows the protective coating to reach both external surfaces and accessible internal areas of hollow steel sections, where conventional surface-applied finishes may not provide protection.

The metallurgically bonded zinc coating provides long-term corrosion protection, helping protect against hidden corrosion within hollow sections and reducing the need for future maintenance and repairs. **Find out more at urbanfab.com/why-we-galvanise/.**

Dimensions and Construction

Specification	Details
Capacity	Up to four adult bicycles with optional cycle rack
Overall size	2050 mm W × 2040 mm D × 2100 mm H
Frame	50 × 25 mm RHS mild steel; hot-dip galvanised to ISO 1461:2022
Mounting	Bolt-down base plates for a suitable hard surface
Cycle Rack when selected	Two square stands on a shared base bar; 750 mm stand spacing; additional central locking bar.

Panel Combinations and Prices

Clear UV2 PETG rear panels are included as standard. Impact-resistant and UV-stabilised on both sides, they provide visibility and allow natural light through. Coloured Skybond ACM and galvanised steel panels are available as opaque alternatives for greater privacy and screening.

Amounts in brackets show upgrade charges (ex VAT). The Ex VAT and Inc VAT columns show total shelter prices for each configuration. The rack is included only where stated; canopy prices are additional.

Shelter configuration & optional extras	Ex VAT	Inc VAT
Shelter only – clear UV2 PETG rear panels included	£699.00	£838.80
Shelter + optional 4-bike cycle rack (+£125 ex VAT)	£824.00	£988.80
Alternative Shelter Configurations – Cycle rack available separately for any configuration		
Shelter + clear UV2 PETG rear and side panels (+£220)	£919.00	£1,102.80
Shelter + coloured Skybond ACM rear panels (+£144)	£843.00	£1,011.60
Shelter + coloured Skybond ACM rear and side panels (+£635)	£1,334.00	£1,600.80
Shelter + galvanised steel rear panels (+£364)	£1,063.00	£1,275.60
Shelter + galvanised steel rear and side panels (+£1,035)	£1,734.00	£2,080.80
Optional Canopies – Additional Cost		
600 mm front canopy – Clear UV2 PETG	£213.00	£255.60
600 mm front canopy – Coloured Skybond ACM	£287.00	£344.40
600 mm front canopy – Galvanised steel	£309.00	£370.80

Other Available Options

- **600 mm front canopy** designed to extend coverage at the front of the shelter by over half a metre and further reduce weather exposure. Available in clear UV2 PETG, coloured Skybond ACM or galvanised steel, with prices shown above.

- **Powder-coated frame.** Available in a choice of standard RAL colours, applied over the hot-dip galvanised steel to create a duplex coating system. This provides an additional protective barrier and decorative finish.

Bespoke Configurations & Project Requirements

Urbanfab works with customers across the UK, from individual enquiries and single-site installations to larger developments and multi-site projects. We offer flexible configurations, including bespoke cycle rack layouts, modular shelter extensions, panel materials and colours to suit individual requirements.

We can also work alongside project timescales, coordinate or delay deliveries to suit installation schedules, and arrange deliveries across multiple sites, with reduced carriage costs where applicable.

Delivery and Installation

Free UK mainland delivery is included. For destinations outside the UK mainland, please contact us for a tailored delivery quotation.

Standard stock configurations are normally delivered within 4–5 days. Please allow approximately 7 working days for coloured panels or a canopy. Optional powder coating normally adds 3–4 working days. Bespoke requirements may need longer; we will confirm the delivery date when arranging your order.

The shelter is supplied flat-packed and ready for assembly, with the required frame and panel assembly fixings included. The frame is designed for bolt-down installation on a suitable hard surface. Ground anchors are available separately for a range of hard surfaces at a small additional cost. We'll contact you after ordering to discuss the most suitable options for your installation.

Ordering Information

We recommend checking the site dimensions, ground conditions and installation access before ordering. When ordering, please let us know your preferred panel combination, whether you require the optional cycle rack or canopy, your chosen colour (where applicable), delivery postcode and preferred delivery date.

Further information about order preparation, delivery arrangements and aftercare is available on our Delivery Information page.

Need help choosing the right option? Our experienced team is happy to advise on shelter sizes, specifications, finishes, galvanising, delivery and installation. You'll speak to real people who can offer practical advice tailored to your requirements.

Prices checked against the Urbanfab product listing on 17 October 2026. A quotation confirms the final specification, price and delivery date.
